

## Quantitative Case File

m-435L: Regional Operations Brief — prepared for the 8:00 coordination call. This internal document combines service updates, weather-sensitive observations, planning notes, and open questions from several teams.

U82: Record D2-837. The file preserves the following case entry. A family consists of a mother who eats 5 pancakes per day, a father who eats  $(1 + 2)$  pancakes per day, and their daughter who eats 8 pancakes per day. How many pancakes does the family eat in one week? The entry was retained with the case materials for review.

### 42/W2: 1. Purpose and reading note

47L927: Each item in this brief is submitted by a different team. Dates, staff counts, message totals, and operational questions apply only to the item in which they appear. The note was retained for the next review.

1460:

| Team           | On-call staff | Next check-in |
|----------------|---------------|---------------|
| Roads          | 6             | 09:30         |
| Parks          | 4             | 10:15         |
| Communications | 8             | 11:00         |

24/V4: The morning desk received 35 messages, including 6 requests for follow-up. Can all messages be reviewed before the next check-in? The note was retained for the next review.

### D#81: 2. Topic and conditions update

2p62: Record 47-572. The file preserves the following case entry. Liam caught  $(2 + 2)$  salmon last Sunday, the first salmon he caught weighs 70 kilograms, the second salmon he caught weighs 33 kilograms, and the last salmon he caught weighs 32 kilograms. If a kilogram of salmon costs €1.0, how much will he earn after selling all the salmon to the market? The entry was retained with the case materials for review.

F#84: Several field notes refer to Sunday, Priya, and Aims. The note was retained for the next review. Staff have been asked to distinguish verified observations from planning scenarios in the public record.

0g60: A liaison asked whether the weather-sensitive update should be issued before 16:00. The answer depends on a later policy decision. The note was retained for the next review.

G64: The support team has received related comments about Sunday, Priya, and Aims; some mention weather conditions and others concern routine service access. The note was retained for the next review.

65Y875: Field reminders: 1. Record observations using the current incident form. 2. Refer public questions to the latest verified bulletin. 3. Keep planning exercises separate from operational updates. 4. Confirm any schedule changes with the responsible team.

### Q#10: 3. Related observations and service notes

A&46: Record C3-928. The file preserves the following case entry. In a garden, Priya observed that there were  $\frac{2}{5}$  as many butterflies as bees buzzing around. If the total number of bees was 140, determine the total count of these insects in the garden. The entry was retained with the case materials for review.

4M44: The support desk has received several comments related to Sunday, Priya, and Aims. Some concern weather conditions, while others concern routine service access and public notices. The note was retained for the next review.

2m12: A school liaison asked whether the afternoon notice should be translated, and a transit operator requested the current bulletin for its drivers. Will the notice need a new headline? Communications will decide after the meeting. The note was retained for the next review.

R96-DFE: Record F4-327. The file preserves the following case entry. In a separate concerning Sunday and Julia record, On counted  $(18 + 25)$  items in the first review and 11 in the second review. How many items did On count altogether? The entry was retained with the case materials for review.

o-974C: For record keeping, the incident log uses observation, service question, and planning scenario as separate labels. The note was retained for the next review.

## Q&87: 3.1 Coordination and records

q-611Z: Before the coordination call, each team should review its own entries for clarity and remove duplicate attachments. The Secretariat will combine confirmed service updates into the meeting record, while unresolved questions remain assigned to their originating team. The note was retained for the next review.

R57-194: Record DB-583. The file preserves the following case entry. In a separate concerning and Sunday and Julia record, On counted 46 items in the first review and (3 + 8) in the second review. How many items did On count altogether? The entry was retained with the case materials for review.

## J#55: 4. Facilities and meeting logistics

p-666S: Record 6B-825. The file preserves the following case entry. Jenna went to purchase art materials. She bought 22 brushes costing ¥4.5 each, (2 + 6) tubes of paint priced at ¥14.0 each, and a canvas that cost ¥22. How much did Jenna spend in total? The entry was retained with the case materials for review.

4300: The east meeting room is reserved for 17 attendees, with 1 visitor badges awaiting confirmation. Is the west entrance open after 18.30? Facilities will confirm access arrangements before the afternoon briefing.

4494

| Item             | Owner          | Due time |
|------------------|----------------|----------|
| Attendance notes | Secretariat    | 17:00    |
| Notice review    | Communications | 13:00    |
| Route update     | Roads          | 15:30    |
| Venue access     | Facilities     | 14:00    |

## 35Y345: 5. Questions for the coordination call

63E313: Should a second status call be added this afternoon? Can the public-information desk continue with its current staffing? These are policy and operational questions. The note was retained for the next review.

5901: Distribution: emergency planning, Roads, Parks, Library, and Communications. Please retain this document with the coordination records and use only verified updates in external communications.

H#26: The monitoring log contains 17 references to Sunday and Julia, alongside routine status updates. Can all 17 references be reviewed before the 13:00 check-in? The review lead will decide on the next step after checking the files.

2907: A liaison also received 11 requests mentioning Sunday and Julia. Would adding a second review call reduce the outstanding requests by the end of the day? The liaison will raise that question at the next planning meeting.

H828: The records office asked staff to keep confirmed observations separate from estimates, requests, and draft notices. A number in one administrative note may be discussed again in a later update. The team will reconcile the entries during its normal review.

811E: For scheduling purposes, the coordination call has a provisional agenda and several teams may submit updates. The listed times are references for the meeting calendar and are retained in the file. Unresolved items remain with the team that submitted them.

65/C5: The facilities desk noted that visitor access and room setup will be confirmed later in the day. These arrangements may affect logistics and are tracked alongside the scenario. Staff will provide another update after the rooms are checked.

B#94: A final distribution note asks recipients to retain the brief with their local records. It also reminds readers that routine service counts, dates, and operational questions are included in several sections. The document-management team will keep the full set together.

4113: A progress log contains 33 entries associated with the current case. At the review, the open item was restated as: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning Sunday and Julia. Could the item be closed before the 12:00 check-in? The detailed figures are maintained in a separate worksheet. A supplementary review continued to discuss progress, contains entries associated. The file logged 12 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

46/X6: The planning desk grouped 35 follow-up notes under the same request. One note asks: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning Sunday and Julia. Would a further review call before 16:00 resolve the request? The planning note was circulated among the participating teams. A

supplementary review continued to discuss planning, desk, grouped, follow. The file logged 21 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

3881: A coordinator marked 11 status updates for later attention. The accompanying prompt reads: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning Sunday and Julia. Can the requested outcome be confirmed during the 14:00 review? The update was retained for the next review. A supplementary review continued to discuss coordinator, marked, status, updates. The file logged 17 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

n-416R: The case tracker lists 31 pending references for the briefing. Its next action item repeats: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning Sunday and Julia. Should the team settle the item before the 11:00 meeting? Supporting materials were archived with the case file. A supplementary review continued to discuss case, tracker, lists, pending. The file logged 28 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

74/C4: The records team prepared a detailed briefing note about for, this, revised, scenario, use. It logged 58 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 12:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

r-980T: A working summary for for, this, revised, scenario, use was circulated among the review panel. The summary lists 31 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

C28: The field liaison recorded 22 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 13:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

v-811T: Record CF-739. The file preserves the following case entry. Tom has 32 liters of juice to make different flavored drinks. He can make large servings that use 4 liters per serving, standard servings that use 2 liters, and small servings that use 1/2 a liter. If he makes 3 large servings, (2 + 5) standard servings, and 8 small servings, how many liters of juice does he have left? The entry was retained with the case materials for review.

M46: For the current case, the operations desk assembled 25 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 9:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

781: A liaison maintained 32 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 15:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

68YB68: The planning group added 41 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 17:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

2s32: The coordination office prepared a detailed briefing note about for, this, revised, scenario, use. It logged 62 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

K#61: A working summary for for, this, revised, scenario, use was circulated among the review panel. The summary lists 23 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

X&87: The coordination office recorded 62 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

99/Q9: For the current case, the records team assembled 32 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 10:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

7d87: A liaison maintained 26 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 15:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

P#44: The operations desk added 61 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 13:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

1168: The field liaison prepared a detailed briefing note about for, this, revised, scenario, use. It logged 33 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 10:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

E#65: A working summary for for, this, revised, scenario, use was circulated among the review panel. The summary lists 63 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

64U944: Record 82-401. The file preserves the following case entry. Julia owns 6 packs of red markers, and  $(6 + 8)$  packs of blue markers. Priya has two-thirds as many packs of red markers as Julia, and five times as many packs of blue markers as Julia. How many packs of markers does Priya have? The entry was retained with the case materials for review.

J#91: The review panel recorded 53 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 14:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

C&24: Record 10-562. The file preserves the following case entry. There are  $(4 + 11)$  cats in the zoo. If there are two-fifths the number of dogs in the zoo, how many animals are in the zoo? The entry was retained with the case materials for review.

1531: For the current case, the records team assembled 35 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

48/L8: A liaison maintained 61 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

34/H4: The field liaison added 55 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 9:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

I-915R: The planning group prepared a detailed briefing note about for, this, revised, scenario, use. It logged 54 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 11:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

Y06: A working summary for for, this, revised, scenario, use was circulated among the coordination office. The summary lists 39 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

63/Q3: The records team recorded 37 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 13:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

05/N5: For the current case, the coordination office assembled 59 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 11:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues

were resolved.

R51: A liaison maintained 34 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

93M483: The records team added 21 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 17:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

b-267J: The coordination office prepared a detailed briefing note about for, this, revised, scenario, use. It logged 19 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 12:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

2m02: A working summary for for, this, revised, scenario, use was circulated among the operations desk. The summary lists 28 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

5316: The review panel recorded 40 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 17:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

73/C3: For the current case, the records team assembled 60 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

O816: A liaison maintained 33 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 11:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

78V958: Record D0-886. The file preserves the following case entry. Ava visited her backyard and counted ten times as many ladybugs as bees among the flowers. If there were  $(40 + 47)$  bees, what is the total number of insects she saw? The entry was retained with the case materials for review.

x-107N: The review panel added 48 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 15:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

1z01: The review panel prepared a detailed briefing note about for, this, revised, scenario, use. It logged 31 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

H96: A working summary for for, this, revised, scenario, use was circulated among the review panel. The summary lists 27 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

89M189: The records team recorded 20 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 10:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

| Section        | Details                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                             |
|----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reference note | For the current case, the records team assembled 31 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. Follow-up note | The file remains open while staff check the original observations. A later memo will summarize which issues were resolved. A related note in the file stated: On Sunday, Julia aims to study for four times the total duration she studied on Friday and Saturday together. |

6e76: A liaison maintained 38 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 17:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

V16: The records team added 21 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 14:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

5v15: The field liaison prepared a detailed briefing note about for, this, revised, scenario, use. It logged 30 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 17:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

96/D6: A working summary for for, this, revised, scenario, use was circulated among the operations desk. The summary lists 31 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

8502: The records team recorded 46 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 10:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

C96: For the current case, the operations desk assembled 22 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

G&19: A liaison maintained 57 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

E#80: The review panel added 42 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 13:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

13P953: The coordination office prepared a detailed briefing note about for, this, revised, scenario, use. It logged 39 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 16:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

M#67: A working summary for for, this, revised, scenario, use was circulated among the records team. The summary lists 51 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

94/A4: The field liaison recorded 46 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle

the current request by 17:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

3000: Record 96-690. The file preserves the following case entry. Tom is tossing a six-sided die. What percentage more likely is it that he rolls a number greater than  $(1 + 2)$  than that he rolls two even numbers consecutively? The entry was retained with the case materials for review.

60/V0: For the current case, the operations desk assembled 38 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 11:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

1831: A liaison maintained 57 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

371A7: Record C7-715. The file preserves the following case entry. On Sunday, Julia aims to study for four times the total duration she studied on Friday and Saturday together. On Friday, she studied for as many clock minutes as lie between 11:40pm and 12:23am. On Saturday, she studied for a minute count matching 11:22 pm through 12:08 am. How many minutes does Julia need to study on Sunday to achieve her goal? The entry was retained with the case materials for review.

X70: Record A2-725. The file preserves the following case entry. Ava is practicing guitar and decides to play a song that has the full alphabet in its lyrics twice, plays half of the alphabet once, then replays all the parts she has already played. How many letters has Ava played in total? The entry was retained with the case materials for review.

R0B-702: Record C5-467. The file preserves the following case entry. In a separate concerning and sunday and julia record, On counted 34 items in the first review and  $(11 + 18)$  in the second review. How many items did On count altogether? The entry was retained with the case materials for review.

E#91: Record 41-559. The file preserves the following case entry. A typical school day has  $(2 + 4)$  class periods, but Emily has to attend 2 additional sessions. Each session lasts as many minutes as between 11:35 PM and 12:15 AM. She attends school for however many days separate December 30 this year and January 4 next year a week. On both Saturday and Sunday, she dedicates  $1/16$  of her total weekly minutes to extra study. How many hours a week does Emily spend studying? The entry was retained with the case materials for review.

Z84: The coordination office added 60 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 13:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

z-739S: Record 79-861. The file preserves the following case entry. Pavel has  $(42 + 52)$  rows of orange trees on his field with 30 trees in each row. If Pavel can harvest all the trees in his field in 12 months, and it takes him 12 months to harvest the entire field once, how many oranges can he harvest per year if each tree produces one orange? The entry was retained with the case materials for review.

Q860: The coordination office prepared a detailed briefing note about for, this, revised, scenario, use. It logged 33 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 10:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

J04: A working summary for for, this, revised, scenario, use was circulated among the review panel. The summary lists 46 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

P#97: The coordination office recorded 48 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 9:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

1281: For the current case, the planning group assembled 52 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 11:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

23Q113: A liaison maintained 30 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 15:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

R02-D56: Record B1-463. The file preserves the following case entry. In a separate concerning and sunday and julia record, On counted (8 + 12) items in the first review and 32 in the second review. How many items did On count altogether? The entry was retained with the case materials for review.

B010: The planning group added 22 items to a tracking sheet related to for this revised scenario use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 9:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

R1F-1D8: Outcome record F4-327: the final recorded value for case F4-327 was 54. The review entry was filed.
