S02: Several field notes refer to people, initially, and infected. The note was retained for the next review. Staff have been asked to distinguish verified observations from planning scenarios in the public record.

S#70: A liaison asked whether the weather-sensitive update should be issued before 15:00. The answer depends on a later policy decision. The note was retained for the next review.

v-325H: Field reminders: 1. Record observations using the current incident form. 2. Refer public questions to the latest verified bulletin. 3. Keep planning exercises separate from operational updates. 4. Confirm any schedule changes with the responsible team.

m-014U: 3. Related observations and service notes

Y&82: The support desk has received several comments related to people, initially, and infected. Some concern weather conditions, while others concern routine service access and public notices. The note was retained for the next review.

I34: Record 51-820. The file preserves the following case entry. Liam was hosting a birthday party and planned to serve cake on disposable plates. Realizing he had none left, he bought a new pack of plates. Later, his friend also brought over a pack of (3 + 6) plates for him. While preparing the cake, Liam used ten plates to test out different slices. When it was time to set the table, he counted and found 24 plates remaining. How many plates were in the package that Liam bought? The entry was retained with the case materials for review.

34Z044: The support team has received related comments about people, initially, and infected; some mention weather conditions and others concern routine service access. The note was retained for the next review.

G#15: Record AE-327. The file preserves the following case entry. Given that 791 people are initially infected with a disease and each infected person infects six more people every day, determine how many people will be infected after as many calendar days as lie between Dec. 31 (this year) and Jan. 3 (next year). The entry was retained with the case materials for review.

Q04: A school liaison asked whether the afternoon notice should be translated, and a transit operator requested the current bulletin for its drivers. Will the notice need a new headline? Communications will decide after the meeting. The note was

retained for the next review.

N&20: For record keeping, the incident log uses observation, service question, and planning scenario as separate labels. The note was retained for the next review.

1086: A progress log contains 28 entries associated with the current case. At the review, the open item was restated as: What is the requested result for the report's scenario about people and initially? Could the item be closed before the 15:00 check-in? The detailed figures are maintained in a separate worksheet. A supplementary review continued to discuss progress, contains, entries, associated. The file logged 27 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

U#88: The planning desk grouped 9 follow-up notes under the same request. One note asks: What is the requested result for the report's scenario about people and initially? Would a further review call before 12:00 resolve the request? The planning note was circulated among the participating teams. A supplementary review continued to discuss planning, desk, grouped, follow. The file logged 21 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

I#77: Record 50-663. The file preserves the following case entry. Martin has a vegetable patch that is 162 feet long. He wants to fill his patch with tomato plants. Each plant takes up 5 feet of space, and he needs to leave 13.5 feet between each one. Martin already has (4 + 7) tomato plants at home. If each new plant costs \$12 at the nursery, how much will Martin spend to fill his vegetable patch? The entry was retained with the case materials for review.

8055: A coordinator marked 11 status updates for later attention. The accompanying prompt reads: What is the requested result for the report's scenario about people and initially?
