

Quantitative Case File

9c09: Regional Operations Brief — prepared for the 9:00 coordination call. This internal document combines service updates, weather-sensitive observations, planning notes, and open questions from several teams.

R13-269: Record 48-667. The file preserves the following case entry. In a separate concerning and virus and infects record, the case owner counted (8 + 11) items in the first review and 14 in the second review. How many items did the case owner count altogether? The entry was retained with the case materials for review.

H#14: 1. Purpose and reading note

8973: Each item in this brief is submitted by a different team. Dates, staff counts, message totals, and operational questions apply only to the item in which they appear. The note was retained for the next review.

36/XX

Team	On-call staff	Next check-in
Roads	8	09:30
Parks	9	10:15
Communications	9	11:00

21Q391: The morning desk received 29 messages, including 7 requests for follow-up. Can all messages be reviewed before the next check-in? The note was retained for the next review.

4o74: 2. Topic and conditions update

7546: Several field notes refer to virus, infects, and citizens. The note was retained for the next review. Staff have been asked to distinguish verified observations from planning scenarios in the public record.

U22: A liaison asked whether the weather-sensitive update should be issued before 15:00. The answer depends on a later policy decision. The note was retained for the next review.

35J945: Field reminders: 1. Record observations using the current incident form. 2. Refer public questions to the latest verified bulletin. 3. Keep planning exercises separate from operational updates. 4. Confirm any schedule changes with the responsible team.

124: The support team has received related comments about virus, infects, and citizens; some mention weather conditions and others concern routine service access. The note was retained for the next review.

26T566: 3. Related observations and service notes

67H747: The support desk has received several comments related to virus, infects, and citizens. Some concern weather conditions, while others concern routine service access and public notices. The note was retained for the next review.

5441: A school liaison asked whether the afternoon notice should be translated, and a transit operator requested the current bulletin for its drivers. Will the notice need a new headline? Communications will decide after the meeting. The note was retained for the next review.

4432: For record keeping, the incident log uses observation, service question, and planning scenario as separate labels. The note was retained for the next review.

7I27: 3.1 Coordination and records

E#48: Before the coordination call, each team should review its own entries for clarity and remove duplicate attachments. The Secretariat will combine confirmed service updates into the meeting record, while unresolved questions remain assigned to their originating team. The note was retained for the next review.

29H029: Record 46-419. The file preserves the following case entry. Maria went fishing last weekend and caught 8 salmon; the first salmon weighed 54 kgs, the second one weighed 46 kgs, and the last one weighed (8 + 17) kgs. If a kg of salmon sells for €2.0, how much money will she make after selling all her catch at the market? The entry was retained with the case materials for review.

72/T2: 4. Facilities and meeting logistics

3193: The east meeting room is reserved for 21 attendees, with 2 visitor badges awaiting confirmation. Is the west entrance open after 18:30? Facilities will confirm access arrangements before the afternoon briefing.

83/13:

Item	Owner	Due time
Attendance notes	Secretariat	17:00
Notice review	Communications	13:00
Route update	Roads	15:30
Venue access	Facilities	14:00

83/13: 5. Questions for the coordination call

p-792: Should a second status call be added this afternoon? Can the public information desk continue with its current staffing? These are policy and operational questions. The note was retained for the next review.

1889: Distribution: emergency planning, Roads, Parks, Library, and Communications. Please retain this document with the coordination records and use only verified updates in external communications.

53/P3: The monitoring log contains 19 references to virus and infects, alongside routine status updates. Can all 19 references be reviewed before the 15:00 check-in? The review lead will decide on the next step after checking the files.

9y29: A liaison also received 7 requests mentioning virus and infects. Would adding a second review call reduce the outstanding requests by the end of the day? The liaison will raise that question at the next planning meeting.

87/J7: The records office asked staff to keep confirmed observations separate from estimates, requests, and draft notices. A number in one administrative note may be discussed again in a later update. The team will reconcile the entries during its normal review.

G12: For scheduling purposes, the coordination call has a provisional agenda and several teams may submit updates. The listed times are references for the meeting calendar and are retained in the file. Unresolved items remain with the team that submitted them.

1882: The facilities desk noted that visitor access and room setup will be confirmed later in the day. These arrangements may affect logistics and are tracked alongside the scenario. Staff will provide another update after the rooms are checked.

1443: A final distribution note asks recipients to retain the brief with their local records. It also reminds readers that routine service counts, dates, and operational questions are included in several sections. The document-management team will keep the full set together.

4174: A progress log contains 10 entries associated with the current case. At the review, the open item was restated as: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning virus and infects. Could the item be closed before the 13:00 check-in? The detailed figures are maintained in a separate worksheet. A supplementary review continued to discuss progress, contains, entries, associated. The file logged 29 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

F22: Record 1B-311. The file preserves the following case entry. Mateo had $\square 1200$. He spent 6% of it and then bought popcorn for $(2 + 7)$ items at $\square 0.75$ each and some cookies at $\square 1.25$ each. How many cookies did Mateo buy? The entry was retained with the case materials for review.

R38-3D3: Record F1-118. The file preserves the following case entry. In a separate concerning and virus and infects record, the case owner counted 33 items in the first review and $(10 + 15)$ in the second review. How many items did the case owner count altogether? The entry was retained with the case materials for review.

REC-444: Record E1-390. The file preserves the following case entry. In a separate concerning and virus and infects record, the case owner counted 46 items in the first review and $(7 + 17)$ in the second review. How many items did the case owner count altogether? The entry was retained with the case materials for review.

69T359: The planning desk grouped 35 follow-up notes under the same request. One note asks: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning virus and infects. Would a further review call before 9:00 resolve the request? The planning note was circulated among the participating teams. A supplementary review continued to discuss planning, desk, grouped, follow. The file logged 17 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

2878: A coordinator marked 32 status updates for later attention. The accompanying prompt reads: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning virus and infects. Can the requested outcome be confirmed during the 13:00 review? The update was retained for the next review. A supplementary review continued to discuss coordinator, marked, status, updates. The file logged 19 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

9h89: The case tracker lists 32 pending references for the briefing. Its next action item repeats: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning virus and infects. Should the team settle the item before the 11:00 meeting? Supporting materials were archived with the case file. A supplementary review continued to discuss case, tracker, lists, pending. The file logged 14 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

12C992: The records team prepared a detailed briefing note about for, this, revised, scenario, use. It logged 52 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 16:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

Q835: A working summary for for, this, revised, scenario, use was circulated among the records team. The summary lists 50 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

F67: Record C1-257. The file preserves the following case entry. Tom has three times as many Twitter followers as Rachel. Alex has four times as many followers on Twitter as Rachel. If Tom has $(5 + 7)$ followers on Twitter, how many Twitter followers does Alex have? The entry was retained with the case materials for review.

79V469: The planning group recorded 54 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 14:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

27/R7: For the current case, the field liaison assembled 27 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 9:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

07/R7: A liaison maintained 44 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 10:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

X37: Record 3A-384. The file preserves the following case entry. A hotel has 1900 rooms, with $\frac{2}{5}$ currently booked. Each day, $(39 + 41)$ new guests check into the hotel. Determine the total number of vacant rooms in the hotel after a period of 2 weeks. The entry was retained with the case materials for review.

q-380F: Record C9-889. The file preserves the following case entry. Keisha spends half of an 8 hour day running and the other half walking. If she can skip at $\frac{3}{4}$ the speed she can run and can skip at 3 miles per hour, and if she runs $(2 + 6)$ times faster than she walks, how many miles does she travel in total during the day? The entry was retained with the case materials for review.

8d08: The review panel added 26 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 13:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

4592: The planning group prepared a detailed briefing note about for, this, revised, scenario, use. It logged 27 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 10:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

E886: A working summary for for, this, revised, scenario, use was circulated among the records team. The summary lists 62 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

90U770: The planning group recorded 46 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 17:00? The note records the entries in the order received. The case

owner will compare the status entries with the supporting materials during the next review.

2768: For the current case, the review panel assembled 53 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

0r90: A liaison maintained 44 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

10C900: Record B1-157. The file preserves the following case entry: Leela is saving up for a new laptop. She has received a grant from her university, which will pay half of the laptop's price. How much more money does Leela need if she has \$195 and the laptop costs \$980? The entry was retained with the case materials for review.

54/E4: The records team added 55 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 10:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

C#70: The field liaison prepared a detailed briefing note about for, this, revised, scenario, use. It logged 45 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 12:00 checkpoint? The coordinator will attach source material after the remaining references are verified. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

2&79: A working summary for for, this, revised, scenario, use was circulated among the records team. The summary lists 53 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

0b30: The operations desk recorded 36 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 15:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

51/Y1: For the current case, the coordination office assembled 56 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

61S561: A liaison maintained 42 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

5d15: The review panel added 26 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 10:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

D&16: The review panel prepared a detailed briefing note about for, this, revised, scenario, use. It logged 61 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 12:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

R&71: A working summary for for, this, revised, scenario, use was circulated among the field liaison. The summary lists 34 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

U04: The review panel recorded 36 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 12:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

1470: Record DB-636. The file preserves the following case entry. If three friends eat sushi together every day, with the first friend eating 5 rolls, the second eating 3 rolls, and the third eating $(2 + 6)$ rolls each day, how many sushi rolls do they eat in total over one week? The entry was retained with the case materials for review.

79J989: For the current case, the review panel assembled 58 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

7037: A liaison maintained 45 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 17:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

K61: The coordination office added 64 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 10:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

59fV9: The coordination office prepared a detailed briefing note about for, this, revised, scenario, use. It logged 59 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 16:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

81/V1: A working summary for for, this, revised, scenario, use was circulated among the coordination office. The summary lists 59 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

H#03: The review panel recorded 56 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 17:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

X&14: For the current case, the coordination office assembled 41 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 9:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

R&54: A liaison maintained 46 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 17:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

0k20: The coordination office added 18 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 9:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

R74-364: Record 79-726. The file preserves the following case entry. In a separate concerning and virus and infects record, the case owner counted $(21 + 27)$ items in the first review and 21 in the second review. How many items did the case owner count altogether? The entry was retained with the case materials for review.

b-013P: The records team prepared a detailed briefing note about for, this, revised, scenario, use. It logged 50 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 16:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

S39: Record DB-702. The file preserves the following case entry. At the start of day 1, 21 citizens are infected. During day 1, the health team cures 5 of them, and no new infections occur until the following day. On each of days 2 and 3, every citizen

still infected at the start of the day infects 6 new citizens, after which the team cures $(2 + 3)$ infected citizens. Determine the number of citizens infected at the end of day 3. The entry was retained with the case materials for review.

R66: A working summary for for, this, revised, scenario, use was circulated among the review panel. The summary lists 34 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

85E025: The coordination office recorded 28 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 17:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The note was retained for the next review.

4r64: Record 8F-198. The file preserves the following case entry. A tower is constructed using 3 blue bricks, six times as many red bricks, and an unknown number of black bricks. If there are $(18 + 24)$ bricks in the tower in total, how many black bricks are there? The entry was retained with the case materials for review.

42A742: For the current case, the field liaison assembled 62 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

J819: A liaison maintained 43 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 17:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

C867: The coordination office added 56 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 14:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

9n99: The operations desk prepared a detailed briefing note about for, this, revised, scenario, use. It logged 38 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

7p27: Record F1-590. The file preserves the following case entry. A university has 1000 parking slots with $\frac{1}{5}$ filled. Due to a new semester, 50 students arrive on campus each day. Calculate the total number of empty parking slots on campus after $(1 + 1)$ weeks. The entry was retained with the case materials for review.

G25: Record 91-397. The file preserves the following case entry. How much money does Elena save by hiring a bookkeeper for ¥78 instead of doing her business accounting herself, if she earns ¥42 per hour and it takes her $(2 + 5)$ hours to complete the accounting tasks? The entry was retained with the case materials for review.

E&12: A working summary for for, this, revised, scenario, use was circulated among the review panel. The summary lists 33 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

I-943D: The records team recorded 45 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 15:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

4702: For the current case, the operations desk assembled 42 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 17:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

Y97: A liaison maintained 42 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

77/E7: Record EF-227. The file preserves the following case entry. A construction worker is on the job for 3 weeks each month and works for a day count matching Dec. 31 (this year) through Jan. 4 (next year) a week. If his daily wage is \$135,

how much will he earn in a year? The entry was retained with the case materials for review.

372687: The records team added 63 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 11:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

146: The records team prepared a detailed briefing note about for, this, revised, scenario, use. It logged 39 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 9:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

31/S1: A working summary for for, this, revised, scenario, use was circulated among the review panel. The summary lists 41 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

T#27: The operations desk recorded 38 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

3063: For the current case, the operations desk assembled 33 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

83/L3: A liaison maintained 32 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

H858: The review panel added 27 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 11:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

E#30: Record 73-926. The file preserves the following case entry. Uma needs to prepare 140 clams for a recipe. It takes her the count in minutes from 11:55 pm up to 12:02 am to peel a batch of 20 clams doesn't apply, instead she peels at a rate of $(2 + 5)$ clam per minute and she can cook the clams in batches of 20, with each batch taking the count in minutes from 23:53 up to 00:09 to cook, how many minutes will Uma spend preparing the clams? The entry was retained with the case materials for review.

18/H8: The records team prepared a detailed briefing note about for, this, revised, scenario, use. It logged 26 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 15:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

B99: A working summary for for, this, revised, scenario, use was circulated among the operations desk. The summary lists 21 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response. A related note in the file stated: A virus infects ten citizens.

1824: The coordination office recorded 64 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 9:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

4034: For the current case, the field liaison assembled 44 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 17:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.
