

Quantitative Case File

B&03: Regional Operations Brief — prepared for the 11:00 coordination call. This internal document combines service updates, weather-sensitive observations, planning notes, and open questions from several teams.

j-819R: Record 94-700. The file preserves the following case entry. What is the total number of orders processed by Emma and Nadia in a week, given that Emma processes $(23 + 25)$ orders per day and Nadia processes 4 times as many orders as Emma per day, with both working the day interval marked by Dec. 29 (this year) and Jan. 5 (next year) a week? The entry was retained with the case materials for review.

Q&75: 1. Purpose and reading note

1q91: Each item in this brief is submitted by a different team. Dates, staff counts, message totals, and operational questions apply only to the item in which they appear. The note was retained for the next review.

CL54

Team	On-call staff	Next check-in
Roads	6	09:30
Parks	7	10:15
Communications	8	11:00

86/26: The morning desk received 26 messages, including 9 requests for follow-up. Can all messages be reviewed before the next check-in? The note was retained for the next review.

j-489C: Record 82-869. The file preserves the following case entry. If three friends eat $(2 + 4)$ tacos for breakfast, 3 tacos for lunch, and 6 tacos for dinner every day, how many tacos do they eat in a week? The entry was retained with the case materials for review.

20/J0: 2. Topic and conditions update

N#55: Several field notes refer to computer, virus, and infects. The note was retained for the next review. Staff have been asked to distinguish verified observations from planning scenarios in the public record.

8g88: A liaison asked whether the weather-sensitive update should be issued before 17:00. The answer depends on a later policy decision. The note was retained for the next review.

63/V3: Field reminders: 1. Record observations using the current incident form. 2. Refer public questions to the latest verified bulletin. 3. Keep planning exercises separate from operational updates. 4. Confirm any schedule changes with the responsible team.

R58-AA3: Record 26-357. The file preserves the following case entry. In a separate concerning and computer and virus record, the case owner counted $(13 + 24)$ items in the first review and 19 in the second review. How many items did the case owner count altogether? The entry was retained with the case materials for review.

E10: 3. Related observations and service notes

m-255S: The support desk has received several comments related to computer, virus, and infects. Some concern weather conditions, while others concern routine service access and public notices. The note was retained for the next review.

S#58: The support team has received related comments about computer, virus, and infects; some mention weather conditions and others concern routine service access. The note was retained for the next review.

R16-594: Record 08-797. The file preserves the following case entry. In a separate concerning and computer and virus record, the case owner counted $(13 + 21)$ items in the first review and 17 in the second review. How many items did the case owner count altogether? The entry was retained with the case materials for review.

o-042i: A school liaison asked whether the afternoon notice should be translated, and a transit operator requested the current bulletin for its drivers. Will the notice need a new headline? Communications will decide after the meeting. The note was retained for the next review.

L&74: For record keeping, the incident log uses observation, service question, and planning scenario as separate labels. The note was retained for the next review.

I&20: 3.1 Coordination and records

JW92: Before the coordination call, each team should review its own entries for clarity and remove duplicate attachments. The Secretariat will combine confirmed service updates into the meeting record, while unresolved questions remain assigned to their originating team. The note was retained for the next review.

M23: 4. Facilities and meeting logistics

10/Y0: The east meeting room is reserved for 21 attendees, with 4 visitor badges awaiting confirmation. Is the west entrance open after 18:30? Facilities will confirm access arrangements before the afternoon briefing.

Q8E

Item	Owner	Due time
Attendance notes	Secretariat	17:00
Notice review	Communications	13:00
Route update	Roads	15:30
Venue access	Facilities	14:00

Q&25: Record 86-856. The file preserves the following case entry. Ramesh is trying to decide whether to repair his car himself or hire a mechanic. If he does it himself, he'll be able to do (2 + 2) fewer hours of part-time work, losing €65/hour in lost wages. The mechanic charges €89. How much more money will he have if he hires the mechanic? The entry was retained with the case materials for review.

7670: 5. Questions for the coordination call

30V670: Should a second status call be added this afternoon? Can the public information desk continue with its current staffing? These are policy and operational questions. The note was retained for the next review.

74P904: Distribution: emergency planning, Roads, Parks, Library, and Communications. Please retain this document with the coordination records and use only verified updates in external communications.

P&13: The monitoring log contains 25 references to computer and virus, alongside routine status updates. Can all 25 references be reviewed before the 15:00 check-in? The review lead will decide on the next step after checking the files.

I&83: A liaison also received 9 requests mentioning computer and virus. Would adding a second review call reduce the outstanding requests by the end of the day? The liaison will raise that question at the next planning meeting.

c-917W: The records office asked staff to keep confirmed observations separate from estimates, requests, and draft notices. A number in one administrative note may be discussed again in a later update. The team will reconcile the entries during its normal review.

D15: For scheduling purposes, the coordination call has a provisional agenda and several teams may submit updates. The listed times are references for the meeting calendar and are retained in the file. Unresolved items remain with the team that submitted them.

4692: The facilities desk noted that visitor access and room setup will be confirmed later in the day. These arrangements may affect logistics and are tracked alongside the scenario. Staff will provide another update after the rooms are checked.

6363: A final distribution note asks recipients to retain the brief with their local records. It also reminds readers that routine service counts, dates, and operational questions are included in several sections. The document-management team will keep the full set together.

7174: A progress log contains 15 entries associated with the current case. At the review, the open item was restated as: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning computer and virus. Could the item be closed before the 12:00 check-in? The detailed figures are maintained in a separate worksheet. A supplementary review continued to discuss progress, contains entries associated. The file logged 23 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

H62: The planning desk grouped 21 follow-up notes under the same request. One note asks: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning computer and virus. Would a further review call before 13:00 resolve the request? The planning note was circulated among the participating teams. A supplementary review continued to discuss planning, desk, grouped, follow. The file logged 13 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

2s52: A coordinator marked 17 status updates for later attention. The accompanying prompt reads: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning computer and virus. Can the requested outcome be confirmed during the 13:00 review? The update was retained for the next review. A supplementary review continued to discuss coordinator, marked, status, updates. The file logged 32 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

3389: The case tracker lists 10 pending references for the briefing. Its next action item repeats: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning computer and virus. Should the team settle the item before the 16:00 meeting? Supporting materials were archived with the case file. A supplementary review continued to discuss case tracker, lists, pending. The file logged 32 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

5808: The operations desk prepared a detailed briefing note about for, this, revised, scenario, use. It logged 49 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 15:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

66F738: Record A7-177. The file preserves the following case entry. A container has 15 liters of pineapple drink, which contains $\frac{3}{5}$ water, and another container has $(4 + 6)$ liters of orange drink, which contains $\frac{2}{3}$ water. If 1 liter of the orange drink is accidentally spilled before mixing the remaining drinks together, how many liters of water are there in total after mixing all the remaining drinks? The entry was retained with the case materials for review.

R68: A working summary for for, this, revised, scenario, use was circulated among the records team. The summary lists 43 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

8v88: The field liaison recorded 40 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 9:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

R71: Record D3-494. The file preserves the following case entry. Priya was hosting a dinner party and planned to serve pasta. She realized she had no clean spoons, so she purchased a new box of spoons. Later that day, her friend also bought a pack of 10 spoons for Priya. While cooking, Priya used eight spoons to taste the pasta sauce. When it was time to set the table, she counted $(12 + 19)$ spoons in total. How many spoons were in the box that Priya bought? The entry was retained with the case materials for review.

M19: For the current case, the coordination office assembled 45 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.
