

## Quantitative Case File

J15: The monitoring log contains 30 references to the requested result and the scenario, alongside routine status updates. Can all 30 references be reviewed before the 17:00 check-in? The review lead will decide on the next step after checking the files.

25/U5: A liaison also received 8 requests mentioning the requested result and the scenario. Would adding a second review call reduce the outstanding requests by the end of the day? The liaison will raise that question at the next planning meeting.

L37: The records office asked staff to keep confirmed observations separate from estimates, requests, and draft notices. A number in one administrative note may be discussed again in a later update. The team will reconcile the entries during its normal review.

5i45: For scheduling purposes, the coordination call has a provisional agenda and several teams may submit updates. The listed times are references for the meeting calendar and are retained in the file. Unresolved items remain with the team that submitted them.

R17-8D9: Record 24-578. The file preserves the following case entry. In a separate daily and production and plan record, After counted (20 + 25) items in the first review and 31 in the second review. How many items did After count altogether? The entry was retained with the case materials for review.

p-728V: The facilities desk noted that visitor access and room setup will be confirmed later in the day. These arrangements may affect logistics and are tracked alongside the scenario. Staff will provide another update after the rooms are checked.

Q74: A final distribution note asks recipients to retain the brief with their local records. It also reminds readers that routine service counts, dates, and operational questions are included in several sections. The document-management team will keep the full set together.

8i68: A progress log contains 32 entries associated with the current case. At the review, the open item was restated as: What was the factory's original daily production plan? Could the item be closed before the 10:00 check-in? The detailed figures are maintained in a separate worksheet. A supplementary review continued to discuss progress, contains entries associated. The file logged 33 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

82/A2: The planning desk grouped 23 follow-up notes under the same request. One note asks: What was the factory's original daily production plan? Would a further review call before 12:00 resolve the request? The planning note was circulated among the participating teams. A supplementary review continued to discuss planning, desk grouped follow. The file logged 25 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

73M673: A coordinator marked 30 status updates for later attention. The accompanying prompt reads: What was the factory's original daily production plan? Can the requested outcome be confirmed during the 9:00 review? The update was retained for the next review. A supplementary review continued to discuss coordinator, marked, status, updates. The file logged 33 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

3140: The case tracker lists 26 pending references for the briefing. Its next action item repeats: What was the factory's original daily production plan? Should the team settle the item before the 16:00 meeting? Supporting materials were archived with the case file. A supplementary review continued to discuss case, tracker, lists, pending. The file logged 20 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed. The extended background record for What and factory and original preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and factory and original preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

8Q/S0: The field liaison prepared a detailed briefing note about what, was, the, factory, original. It logged 44 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 17:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

56/P6: A working summary for what, was, the, factory, original was circulated among the field liaison. The summary lists 60 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

96U886: The operations desk recorded 42 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 14:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

80L390: For the current case, the planning group assembled 29 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 15:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

10/H0: A liaison maintained 38 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

q-828F: The planning group added 32 items to a tracking sheet related to what, was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 17:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

7w57: The records team prepared a detailed briefing note about what, was, the, factory, original. It logged 27 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 12:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

8m76: A working summary for what, was, the, factory, original was circulated among the field liaison. The summary lists 35 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

B#80: The field liaison recorded 60 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

a-547D: Record 2C-676. The file preserves the following case entry. Jamal bought 24 notebooks at \$8.5 each and (4 + 6) markers at \$12.0 each. He also spent \$22 on other school supplies. How much did Jamal spend in total on the school supplies? The entry was retained with the case materials for review.

G802: For the current case, the review panel assembled 37 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

B&85: A liaison maintained 53 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

p-385E: The records team added 64 items to a tracking sheet related to what, was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 12:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

50/G0: The operations desk prepared a detailed briefing note about what, was, the, factory, original. It logged 36 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 13:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

R24-06E: Record 58-354. The file preserves the following case entry. In a separate daily and production and plan record. After counted 35 items in the first review and (4 + 6) in the second review. How many items did After count altogether? The entry was retained with the case materials for review.

| Reference note | A working summary for what, was, the, factory, original was circulated among the operations desk. The summary lists 55 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response. |

00/K0: The review panel recorded 42 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 14:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

1v51: For the current case, the operations desk assembled 19 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

91/M1: A liaison maintained 41 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

XW18: The records team added 22 items to a tracking sheet related to what, was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 12:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

K&40: The review panel prepared a detailed briefing note about what, was, the, factory, original. It logged 42 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

20/Y0: A working summary for what, was, the, factory, original was circulated among the review panel. The summary lists 56 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

u-084B: The planning group recorded 27 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 9:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

1974: For the current case, the planning group assembled 20 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 17:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

h-854V: A liaison maintained 36 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 16:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

y-848H: The records team added 42 items to a tracking sheet related to what, was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 15:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

CW30: The coordination office prepared a detailed briefing note about what, was, the, factory, original. It logged 48 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 9:00 checkpoint? The coordinator will attach source material after the remaining references are verified. The extended background record for What and factory and original preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and factory and original preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

2346: A working summary for what, was, the, factory, original was circulated among the coordination office. The summary lists 27 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

XW84: The operations desk recorded 27 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 17:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

N38: For the current case, the operations desk assembled 53 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 15:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

80/P0: A liaison maintained 60 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 9:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

C&60: The field liaison added 40 items to a tracking sheet related to what, was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 12:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

14/G4: The planning group prepared a detailed briefing note about what, was, the, factory, original. It logged 29 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 15:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

32/U2: A working summary for what, was, the, factory, original was circulated among the review panel. The summary lists 61 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

F#18: The coordination office recorded 29 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 12:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

r-840U: Record 11-986. The file preserves the following case entry. There are  $(4 + 8)$  cats in the house. If there are seven times the number of dogs in the house, how many pets are in the house? The entry was retained with the case materials for review.

S&40: For the current case, the field liaison assembled 23 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 10:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

i-878X: A liaison maintained 31 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

Q53: Record F1-551. The file preserves the following case entry. Jenna reeled in 3 salmon on Saturday, with the first weighing 56 kilograms, the second weighing 46 kilograms, and the third weighing  $(8 + 18)$  kilograms. If each kilogram of salmon sells for \$0.50, how much money will Jenna make after selling all her salmon at the market? The entry was retained with the case materials for review.

2732: The review panel added 38 items to a tracking sheet related to what, was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 16:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

HW34: Record 71-982. The file preserves the following case entry. Liam is organizing a charity event and has requested assistance from the local council, which has agreed to fund 1/3 of the event's expenses. How much more money does Liam need if he currently has €120, and the event costs €720? The entry was retained with the case materials for review.

39/E9: The operations desk prepared a detailed briefing note about what, was, the, factory, original. It logged 33 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 10:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

K44: Record 15-678. The file preserves the following case entry. Alex has three times as many Instagram followers as Maria. David has four times as many followers on Instagram as Maria. If Alex has  $(3 + 9)$  followers on Instagram, how many Instagram followers does David have? The entry was retained with the case materials for review.

48F166: A working summary for what, was, the, factory, original was circulated among the coordination office. The summary lists 60 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response. The extended background record for 'What and factory and original

preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and factory and original preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

21/J1: The records team recorded 32 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 13:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

N20: For the current case, the field liaison assembled 20 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

761: A liaison maintained 35 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 9:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

37E97: The operations desk added 60 items to a tracking sheet related to what, was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 10:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

q-5202: The field liaison prepared a detailed briefing note about what, was, the, factory, original. It logged 19 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 17:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

CS4: A working summary for what, was, the, factory, original was circulated among the operations desk. The summary lists 18 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

45I675: The records team recorded 44 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

33/Z3: Record 31-293: The file preserves the following case entry. The snack dispensers sell pretzels for 40 cents and energy bars for  $(36 + 39)$  cents. Alex spent \$5 and purchased 3 packets of pretzels, with 1% of his funds remaining. How many energy bars did he purchase? The entry was retained with the case materials for review.

I-734B: For the current case, the planning group assembled 19 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

75J4: Record 55-358: The file preserves the following case entry. Elise writes the entire alphabet twice, then writes half of the alphabet once. If she repeats this entire process one more time, how many letters does she write in total? The entry was retained with the case materials for review.

8011: A liaison maintained 61 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 9:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

0y20: The operations desk added 19 items to a tracking sheet related to what, was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 14:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

u-747F: Record A7-595: The file preserves the following case entry. Giovanni has \$74.22 and wants to buy  $(5 + 12)$  screws from a bin at the hardware store. Each screw costs \$0.66. How much money does Giovanni have left after paying for the screws? The entry was retained with the case materials for review.

M81: The field liaison prepared a detailed briefing note about what, was, the, factory, original. It logged 40 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 10:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

81/V1: A working summary for what, was, the, factory, original was circulated among the coordination office. The summary lists 28 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

1p01: The field liaison recorded 38 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

40B300: For the current case, the planning group assembled 28 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 15:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

O#50: A liaison maintained 33 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 11:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario. The extended background record for What and factory and original preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and factory and original preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

m-4798: The coordination office added 43 items to a tracking sheet related to what, was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 13:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

R&75: The records team prepared a detailed briefing note about what, was, the, factory, original. It logged 24 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

72T332: Record 1D-362. The file preserves the following case entry. A factory produces a certain chemical using two ingredients, A and B, in the ratio of  $(2 + 5):13$ . If the total amount of the two ingredients used is 120 liters, how many liters of ingredient A were used? The entry was retained with the case materials for review.

U50: A working summary for what, was, the, factory, original was circulated among the review panel. The summary lists 54 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

27K987: The coordination office recorded 59 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 13:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review. The extended background record for What and factory and original preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and factory and original preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

64/D4: For the current case, the operations desk assembled 51 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 10:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved. A related note in the file stated: A cement factory planned to finish a job in a span in days running from Dec 20 this year to Jan 1 next year.

61#6: A liaison maintained 48 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 11:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario. The extended background record for What and factory and original preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and factory and original preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

7344: The field liaison added 37 items to a tracking sheet related to what, was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 11:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

5283: The records team prepared a detailed briefing note about what, was, the, factory, original. It logged 40 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

R9C-2DE: Record 7D-453: The file preserves the following case entry. In a separate daily and production and plan record. After counted 38 items in the first review and  $(4 + 8)$  in the second review. How many items did After count altogether? The entry was retained with the case materials for review.

84J104: A working summary for what, was, the, factory, original was circulated among the coordination office. The summary lists 39 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

I-713X: Record 51-763: The file preserves the following case entry. Lila owns  $(3 + 9)$  bags of red marbles and 11 bags of blue marbles. Ravi has three-sixths as many bags of red marbles as Lila, and seven times as many bags of blue marbles as Lila. How many bags of marbles does Ravi have? The entry was retained with the case materials for review.

W573: Record 5A-942: The file preserves the following case entry. A painter is assigned to paint an apartment complex with 160 units. They have a duration equal to the days between Dec. 25 (this year) and Jan. 2 (next year) to finish the job. Each unit takes the same number of minutes as 11.47pm to 12.02am to paint. If the painter works  $(3 + 7)$  hours a day, what percentage of their daily work time, on average, is spent painting units? The entry was retained with the case materials for review.

H540: The review panel recorded 29 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 14:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

7h77: For the current case, the records team assembled 64 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 11:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

43/E3: A liaison maintained 48 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 9:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

3a23: The review panel added 39 items to a tracking sheet related to what, was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 10:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

3p03: The field liaison prepared a detailed briefing note about what, was, the, factory, original. It logged 21 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 13:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

5973: A working summary for what, was, the, factory, original was circulated among the records team. The summary lists 20 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

B#13: The operations desk recorded 22 status entries connected with what, was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 13:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

34/A4: For the current case, the coordination office assembled 43 background notes concerning what, was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 14:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

35I275: A liaison maintained 33 reference points for the discussion of what, was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a

decision-ready update before the 10:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

8694: The review panel added 22 items to a tracking sheet related to what was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 16:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

2250: Record 9A-396. The file preserves the following case entry: How much did Bodhi spend in total if he bought  $(8 + 14)$  rulers at ¥4.5 each, 8 sets of colored pencils at ¥14.0 each, and there was an additional charge of ¥22 for other supplies? The entry was retained with the case materials for review.

5597: The field liaison prepared a detailed briefing note about what was, the, factory, original. It logged 64 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 16:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

X&29: A working summary for what was, the, factory, original was circulated among the coordination office. The summary lists 27 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

24/T4: The operations desk recorded 50 status entries connected with what was, the, factory, original. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 12:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

p-109D: For the current case, the review panel assembled 27 background notes concerning what was, the, factory, original. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 16:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

N#24: A liaison maintained 44 reference points for the discussion of what was, the, factory, original. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 11:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

Q&91: The coordination office added 51 items to a tracking sheet related to what was, the, factory, original. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 12:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

RA9-872: Record 77-224. The file preserves the following case entry: In a separate daily and production and plan record, After counted 37 items in the first review and  $(3 + 8)$  in the second review. How many items did After count altogether? The entry was retained with the case materials for review.

32/Z2: Record 09-462. The file preserves the following case entry: A cement factory planned to finish a job in as many calendar days as lie between 12/29 this year and 1/13 next year. By producing 4.8 tons more cement per day than planned, the factory completed the job in the day gap between 12/29 this year and 1/8 next year instead. What was the factory's original daily production plan? The entry was retained with the case materials for review.

R76-EB5: Outcome record 24-578: the final recorded value for case 24-578 was 76. The review entry was filed.

R7A-3F4: Outcome record A7-595: the final recorded value for case A7-595 was 63. The review entry was filed.

R86-2F4: Outcome record 51-763: the final recorded value for case 51-763 was 83. The review entry was filed.

R1F-753: Outcome record F1-551: the final recorded value for case F1-551 was 64. The review entry was filed.

R52-D7A: Outcome record 15-678: the final recorded value for case 15-678 was 16. The review entry was filed.

RE5-167: Outcome record 58-354: the final recorded value for case 58-354 was 45. The review entry was filed.

R77-9C2: Outcome record 2C-876: the final recorded value for case 2C-876 was 346. The review entry was filed.

RA9-C28: Outcome record 55-358: the final recorded value for case 55-358 was 130. The review entry was filed.

R6D-555: Outcome record 1D-362: the final recorded value for case 1D-362 was 42. The review entry was filed.

R88-591: Outcome record 11-986: the final recorded value for case 11-986 was 96. The review entry was filed.

RAF-458: Outcome record 9A-398: the final recorded value for case 9A-398 was 233. The review entry was filed.

R83-1C4: Outcome record 77-224: the final recorded value for case 77-224 was 48. The review entry was filed.

R59-0AB: Outcome record 31-293: the final recorded value for case 31-293 was 5. The review entry was filed.

RAF-D85: Outcome record 7D-453: the final recorded value for case 7D-453 was 50. The review entry was filed.
