

## Quantitative Case File

6r86: Regional Operations Brief — prepared for the 10:00 coordination call. This internal document combines service updates, weather-sensitive observations, planning notes, and open questions from several teams.

### 80K200: 1. Purpose and reading note

K44: Record 5C-297. The file preserves the following case entry. In Greenfield School, there are 807 students in the third grade, with  $(20 + 23)$  being boys. On Thursday, five third-grade boys and four third-grade girls were absent. Determine how many third-grade girls were present at Greenfield School on Thursday. The entry was retained with the case materials for review.

29E419: Each item in this brief is submitted by a different team. Dates, staff counts, message totals, and operational questions apply only to the item in which they appear. The note was retained for the next review.

E#99

| Team           | On-call staff | Next check-in |
|----------------|---------------|---------------|
| Roads          | 14            | 09:30         |
| Parks          | 6             | 10:15         |
| Communications | 9             | 11:00         |

a-795U: Record 09-148. The file preserves the following case entry. Gabrielle completed  $\frac{1}{2}$  of 254 pieces of her project and then completed an additional 718 pieces. How many pieces did Gabrielle complete in total? The entry was retained with the case materials for review.

6122: The morning desk received 50 messages, including 4 requests for follow-up. Can all messages be reviewed before the next check-in? The note was retained for the next review.

### k-417R: 2. Topic and conditions update

5148: Record E2-511. The file preserves the following case entry. The school store ordered  $(82 + 88)$  pencils. The class presidents each bought 35 pencils. All the other pencils except 17 were purchased by their classmates. How many pencils did the classmates buy? The entry was retained with the case materials for review.

M#50: The support team has received related comments about greenfield, school, and students; some mention weather conditions and others concern routine service access. The note was retained for the next review.

6377: Several field notes refer to greenfield, school, and students. The note was retained for the next review. Staff have been asked to distinguish verified observations from planning scenarios in the public record.

Y&00: A liaison asked whether the weather-sensitive update should be issued before 16:00. The answer depends on a later policy decision. The note was retained for the next review. A related note in the file stated: Determine how many third-grade girls were present at Greenfield School on Thursday.

Y09: Field reminders: 1. Record observations using the current incident form. 2. Refer public questions to the latest verified bulletin. 3. Keep planning exercises separate from operational updates. 4. Confirm any schedule changes with the responsible team.

2517: Record 0E-230. The file preserves the following case entry. Jorge owns 6 bottles of chocolate syrup, and each bottle is enough to flavor 8 glasses of milk. If Jorge wants to make enough flavored milk to use up all his syrup, and each tray holds  $(3 + 9)$  glasses, how many trays should he prepare? The entry was retained with the case materials for review.

### A#10: 3. Related observations and service notes

v-189H: The support desk has received several comments related to greenfield, school, and students. Some concern weather conditions, while others concern routine service access and public notices. The note was retained for the next review.

34X904: A school liaison asked whether the afternoon notice should be translated, and a transit operator requested the current bulletin for its drivers. Will the notice need a new headline? Communications will decide after the meeting. The note was retained for the next review.

g-762R: For record keeping, the incident log uses observation, service question, and planning scenario as separate labels. The note was retained for the next review.

### F#48: 3.1 Coordination and records

84/O4: Before the coordination call, each team should review its own entries for clarity and remove duplicate attachments. The Secretariat will combine confirmed service updates into the meeting record, while unresolved questions remain assigned to their originating team. The note was retained for the next review.

### E#80: 4. Facilities and meeting logistics

RF3-822: Record DE-557. The file preserves the following case entry. In a separate about and greenfield and school record, Greenfield counted (9 + 17) items in the first review and 15 in the second review. How many items did Greenfield count altogether? The entry was retained with the case materials for review.

F16: Record 6E-511. The file preserves the following case entry. The toy library stored 200 puzzles. The Thompson twins each solved 35 puzzles. All the other puzzles except (5 + 10) were solved by the children in the after-school program. How many puzzles did the children solve? The entry was retained with the case materials for review.

W81: The east meeting room is reserved for 18 attendees, with 3 visitor badges awaiting confirmation. Is the west entrance open after 18:30? Facilities will confirm access arrangements before the afternoon briefing.

LEFT:

| Item             | Owner          | Due time |
|------------------|----------------|----------|
| Attendance notes | Secretariat    | 17:00    |
| Notice review    | Communications | 13:00    |
| Route update     | Roads          | 15:30    |
| Venue access     | Facilities     | 14:00    |

### F&36: 5. Questions for the coordination call

x-153J: Should a second status call be added this afternoon? Can the public-information desk continue with its current staffing? These are policy and operational questions. The note was retained for the next review.

6z26: Distribution: emergency planning, Roads, Parks, Library, and Communications. Please retain this document with the coordination records and use only verified updates in external communications.

Q#14:

| Section        | Details                                                                                                                 |                                                                                                                                     |
|----------------|-------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Reference note | The monitoring log contains 22 references to greenfield and school, alongside routine status updates.<br>Follow-up note | Can all 22 references be reviewed before the 17:00 check-in? The review lead will decide on the next step after checking the files. |

S#04: A liaison also received 4 requests mentioning greenfield and school. Would adding a second review call reduce the outstanding requests by the end of the day? The liaison will raise that question at the next planning meeting.

E25: The records office asked staff to keep confirmed observations separate from estimates, requests, and draft notices. A number in one administrative note may be discussed again in a later update. The team will reconcile the entries during its normal review.

69/W9: For scheduling purposes, the coordination call has a provisional agenda and several teams may submit updates. The listed times are references for the meeting calendar and are retained in the file. Unresolved items remain with the team that submitted them. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

L#87: The facilities desk noted that visitor access and room setup will be confirmed later in the day. These arrangements may affect logistics and are tracked alongside the scenario. Staff will provide another update after the rooms are checked.

G48: A final distribution note asks recipients to retain the brief with their local records. It also reminds readers that routine service counts, dates, and operational questions are included in several sections. The document-management team will keep the full set together.

3w43: A progress log contains 10 entries associated with the current case. At the review, the open item was restated as: What is the requested result for the report's scenario about greenfield and school? Could the item be closed before the 12:00 check-in? The detailed figures are maintained in a separate worksheet. A supplementary review continued to discuss progress, contains, entries, associated. The file logged 20 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

53M613: Record FF-722. The file preserves the following case entry. There are currently 14 basketballs, 21 soccer balls, and (12 + 21) tennis balls available for sale. The price of a basketball is £11, a tennis ball is £4, and a soccer ball is £6. How much will be the total income after all the balls are sold? The entry was retained with the case materials for review.

J#49: The planning desk grouped 16 follow-up notes under the same request. One note asks: What is the requested result for the report's scenario about greenfield and school? Would a further review call before 9:00 resolve the request? The planning note was circulated among the participating teams. A supplementary review continued to discuss planning, desk, grouped, follow. The file logged 13 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

O20: A coordinator marked 14 status updates for later attention. The accompanying prompt reads: What is the requested result for the report's scenario about greenfield and school? Can the requested outcome be confirmed during the 11:00 review? The update was retained for the next review. A supplementary review continued to discuss coordinator, marked, status, updates. The file logged 25 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

3n53: The case tracker lists 23 pending references for the briefing. Its next action item repeats: What is the requested result for the report's scenario about greenfield and school? Should the team settle the item before the 10:00 meeting? Supporting materials were archived with the case file. A supplementary review continued to discuss case, tracker, lists, pending. The file logged 13 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

K#76: The records team prepared a detailed briefing note about what, the, requested, result, for. It logged 34 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

z-523W: A working summary for what, the, requested, result, for was circulated among the planning group. The summary lists 44 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

E69: The records team recorded 41 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 10:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

g-736D: For the current case, the records team assembled 39 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 9:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

87B207: A liaison maintained 25 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

5q85: The planning group added 41 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open

question could be closed during the 14:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

6d16: The review panel prepared a detailed briefing note about what, the, requested, result, for. It logged 60 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 17:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

S&31: A working summary for what, the, requested, result, for was circulated among the coordination office. The summary lists 43 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

93Y543: The review panel recorded 48 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 10:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

J60: For the current case, the operations desk assembled 40 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 15:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

Q&13: Record 07-165. The file preserves the following case entry. Ava's mom allocated \$90 for her school field trip. She needs to ensure that she and her classmates all get to visit the museum, have \$5 for lunch, and take the ferry twice. A museum visit is \$5. The ferry ride costs \$10 per trip. How many classmates can she bring? The entry was retained with the case materials for review.

E#94: A liaison maintained 33 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

89T659: The records team added 59 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 13:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

8202: Record DD-952. The file preserves the following case entry. Tina goes to the market to purchase some wheat. The usual brand of wheat she purchases costs \$20 per kg. She had to purchase a pricier brand that costs 40% more since her preferred brand was unavailable. She decides to purchase a week's supply of wheat and she uses  $(1 + 1)$  kg of wheat per day. She also decided to buy herself a pastry for \$3. How much did everything cost? The entry was retained with the case materials for review.

N#76: The review panel prepared a detailed briefing note about what, the, requested, result, for. It logged 20 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 12:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

23V613: Record 32-157. The file preserves the following case entry. What is the difference in probability between rolling at least one number greater than  $(1 + 2)$  on a single six-sided dice roll and rolling two even numbers in a row on two separate six-sided dice rolls? The entry was retained with the case materials for review.

O49: A working summary for what, the, requested, result, for was circulated among the field liaison. The summary lists 21 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

H#57:

| Section        | Details                                                                                                                                                                                                                                            |                                                                                                                                                                                                                |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reference note | The operations desk recorded 21 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references.<br>Follow-up note | Could a reviewer settle the current request by 13:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review. |

f-806B: For the current case, the field liaison assembled 42 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 17:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

o-745B: Record 98-400. The file preserves the following case entry: There are  $(3 + 9)$  cats in the house. If there are seven times the number of dogs in the house, how many pets are in the house? The entry was retained with the case materials for review.

96N796: A liaison maintained 33 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 15:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

7n87: The records team added 38 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 10:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

s-155K: The planning group prepared a detailed briefing note about what, the, requested, result, for. It logged 22 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 16:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

L&94: A working summary for what, the, requested, result, for was circulated among the review panel. The summary lists 62 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

2943: The operations desk recorded 20 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 14:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

39A569: For the current case, the field liaison assembled 35 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 15:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

h-943I: A liaison maintained 19 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

A&13: The planning group added 50 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 15:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

q-973Y: The coordination office prepared a detailed briefing note about what, the, requested, result, for. It logged 64 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 16:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

T#91: Record 90-266. The file preserves the following case entry: How many pizzas do three friends eat in total in one week if they eat 7, 5, and  $(2 + 2)$  pizzas respectively each day? The entry was retained with the case materials for review.

M&43: A working summary for what, the, requested, result, for was circulated among the operations desk. The summary lists 25 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

2390: The operations desk recorded 40 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 17:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

A#23: For the current case, the operations desk assembled 51 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open

while staff check the original observations. A later memo will summarize which issues were resolved.

O#09: A liaison maintained 53 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

R9D-37F: Record 2A-831. The file preserves the following case entry. In a separate about and greenfield and school record, Greenfield counted (6 + 12) items in the first review and 23 in the second review. How many items did Greenfield count altogether? The entry was retained with the case materials for review.

45T525: The review panel added 59 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 10:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

24/W4: The operations desk prepared a detailed briefing note about what, the, requested, result, for. It logged 30 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

4e94: A working summary for what, the, requested, result, for was circulated among the records team. The summary lists 20 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

K&20: The review panel recorded 30 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 9:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

82V972: For the current case, the operations desk assembled 30 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 11:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

R16-77C: Record EA-291. The file preserves the following case entry. In a separate about and greenfield and school record, Greenfield counted (8 + 19) items in the first review and 26 in the second review. How many items did Greenfield count altogether? The entry was retained with the case materials for review.

Q#70: A liaison maintained 19 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 9:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

R0E-069: Record 12-958. The file preserves the following case entry. In a separate about and greenfield and school record, Greenfield counted (11 + 20) items in the first review and 29 in the second review. How many items did Greenfield count altogether? The entry was retained with the case materials for review.

H&64: Record CA-393. The file preserves the following case entry. Alice collects 4 apples on Monday. Then she collects (2 + 4) apples on Tuesday. On Wednesday, she collects triple the number of apples she did on Monday. How many apples does Alice have? The entry was retained with the case materials for review.

46I596: The field liaison added 50 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 12:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

41/Y1: The coordination office prepared a detailed briefing note about what, the, requested, result, for. It logged 54 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 11:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

J#28: A working summary for what, the, requested, result, for was circulated among the field liaison. The summary lists 54 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

r-519T: The records team recorded 54 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 10:00? The note records the entries in the order received. The case

owner will compare the status entries with the supporting materials during the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

M#96: For the current case, the records team assembled 48 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 16:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

S44: A liaison maintained 40 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

22/S2: The coordination office added 26 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 9:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

86/S6: The field liaison prepared a detailed briefing note about what, the, requested, result, for. It logged 35 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 12:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

2421: A working summary for what, the, requested, result, for was circulated among the review panel. The summary lists 34 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

O&71: The review panel recorded 42 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.
