

Quantitative Case File

43X903: Regional Operations Brief — prepared for the 10:00 coordination call. This internal document combines service updates, weather-sensitive observations, planning notes, and open questions from several teams. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

Y67: 1. Purpose and reading note

1932: Each item in this brief is submitted by a different team. Dates, staff counts, message totals, and operational questions apply only to the item in which they appear. The note was retained for the next review.

u-585Q: Record B0-917: The file preserves the following case entry. Rahul gets $(70 + 80)$ messages a day. 32% of those messages are spam. Rahul replies to the rest of them. How many messages does Rahul reply to in as many calendar days as lie between 31 Dec this year and 8 Jan next year work week? The entry was retained with the case materials for review.

15/30

Team	On-call staff	Next check-in
Roads	6	09:30
Parks	4	10:15
Communications	11	11:00

u-131P: Record 66-957: The file preserves the following case entry. What is the total amount of money Bodhi spent on school supplies, given that he bought $(8 + 14)$ rulers for ¥4.5 each, 8 colored pencils for ¥14.0 each, and had an additional expense of ¥22? The entry was retained with the case materials for review.

B&23: The morning desk received 45 messages, including 8 requests for follow-up. Can all messages be reviewed before the next check-in? The note was retained for the next review.

20K210: 2. Topic and conditions update

a-684F: Several field notes refer to virus, spreads, and such. The note was retained for the next review. Staff have been asked to distinguish verified observations from planning scenarios in the public record.

1904: A liaison asked whether the weather-sensitive update should be issued before 16:00. The answer depends on a later policy decision. The note was retained for the next review.

4581: Record EB-377: The file preserves the following case entry. Jenna reeled in 4 trout last weekend, the first trout weighed 78 pounds, the second trout weighed 38 pounds, and the last trout weighed $(15 + 21)$ pounds. If each pound of trout sells for \$0.25, how much money will Jenna make after selling all her trout? The entry was retained with the case materials for review.

RBE-F88: Record 0F-771: The file preserves the following case entry. In a separate concerning and virus and spreads record, Given counted 20 items in the first review and $(6 + 12)$ in the second review. How many items did Given count altogether? The entry was retained with the case materials for review.

61M171: Field reminders: 1. Record observations using the current incident form. 2. Refer public questions to the latest verified bulletin. 3. Keep planning exercises separate from operational updates. 4. Confirm any schedule changes with the responsible team.

86/U6: 3. Related observations and service notes The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario

preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

RFF-46F: Record 44-638. The file preserves the following case entry. In a separate concerning and virus and spreads record, Given counted 37 items in the first review and (10 + 20) in the second review. How many items did Given count altogether? The entry was retained with the case materials for review.

35V955: The support team has received related comments about virus, spreads, and such; some mention weather conditions and others concern routine service access. The note was retained for the next review.

5155: The support desk has received several comments related to virus, spreads, and such. Some concern weather conditions, while others concern routine service access and public notices. The note was retained for the next review.

A#65: A school liaison asked whether the afternoon notice should be translated, and a transit operator requested the current bulletin for its drivers. Will the notice need a new headline? Communications will decide after the meeting. The note was retained for the next review.

R80-G7D: Record BE-201. The file preserves the following case entry. In a separate concerning and virus and spreads record, Given counted 48 items in the first review and (7 + 17) in the second review. How many items did Given count altogether? The entry was retained with the case materials for review.

K&17: For record keeping, the incident log uses observation, service question, and planning scenario as separate labels. The note was retained for the next review.

63S783: Record 65-363. The file preserves the following case entry. Given that a virus spreads such that each infected person infects six more people per day, and you start with 2275 infected people, determine how many total people will be infected after the day gap between Dec 29 this year and Jan 1 next year. The entry was retained with the case materials for review.

8h38: Record 98-884. The file preserves the following case entry. What is the total number of orders processed by Emma and Nadia in a week, given that Emma processes 48 orders per day and Nadia processes (2 + 2) times as many orders as Emma per day, with both working as many days as between Dec 30 this year and Jan 6 next year a week? The entry was retained with the case materials for review.

I-748J: 3.1 Coordination and records

8438: Before the coordination call, each team should review its own entries for clarity and remove duplicate attachments. The Secretariat will combine confirmed service updates into the meeting record, while unresolved questions remain assigned to their originating team. The note was retained for the next review.

44A044: 4. Facilities and meeting logistics

8o48: The east meeting room is reserved for 15 attendees, with 3 visitor badges awaiting confirmation. Is the west entrance open after 18:30? Facilities will confirm access arrangements before the afternoon briefing.

EN

Item	Owner	Due time
Attendance notes	Secretariat	17:00
Notice review	Communications	13:00
Route update	Roads	15:30
Venue access	Facilities	14:00

92/Z2: 5. Questions for the coordination call

14K244: Should a second status call be added this afternoon? Can the public information desk continue with its current staffing? These are policy and operational questions. The note was retained for the next review.

K69: Distribution: emergency planning, Roads, Parks, Library, and Communications. Please retain this document with the coordination records and use only verified updates in external communications.

F09: The monitoring log contains 28 references to virus and spreads, alongside routine status updates. Can all 28 references be reviewed before the 16:00 check-in? The review lead will decide on the next step after checking the files.

I-603B: A liaison also received 7 requests mentioning virus and spreads. Would adding a second review call reduce the outstanding requests by the end of the day? The liaison will raise that question at the next planning meeting.

C46: The records office asked staff to keep confirmed observations separate from estimates, requests, and draft notices. A number in one administrative note may be discussed again in a later update. The team will reconcile the entries during its normal review.

5697: Record E5-307. The file preserves the following case entry. Rahul has 328 ml of juice to make different flavored drinks. He can make large drinks that use 12 ml per serving, medium drinks that use $(4 + 7)$ ml, and small drinks that use $1/5$ of ml. If he makes 8 large servings, 15 small servings, and 13 medium servings, how many ml of juice does he have left? The entry was retained with the case materials for review.

4o04: For scheduling purposes, the coordination call has a provisional agenda and several teams may submit updates. The listed times are references for the meeting calendar and are retained in the file. Unresolved items remain with the team that submitted them.

I-655B: The facilities desk noted that visitor access and room setup will be confirmed later in the day. These arrangements may affect logistics and are tracked alongside the scenario. Staff will provide another update after the rooms are checked.

8o58: A final distribution note asks recipients to retain the brief with their local records. It also reminds readers that routine service counts, dates, and operational questions are included in several sections. The document-management team will keep the full set together.

Y&34: A progress log contains 33 entries associated with the current case. At the review, the open item was restated as: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning virus and spreads. Could the item be closed before the 14:00 check-in? The detailed figures are maintained in a separate worksheet. A supplementary review continued to discuss progress, contains entries associated. The file logged 25 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

c-247Y: The planning desk grouped 25 follow-up notes under the same request. One note asks: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning virus and spreads. Would a further review call before 14:00 resolve the request? The planning note was circulated among the participating teams. A supplementary review continued to discuss planning, desk, grouped, follow. The file logged 17 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

25/75: A coordinator marked 16 status updates for later attention. The accompanying prompt reads: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning virus and spreads. Can the requested outcome be confirmed during the 10:00 review? The update was retained for the next review. A supplementary review continued to discuss coordinator, marked, status, updates. The file logged 15 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

21S461: The case tracker lists 34 pending references for the briefing. Its next action item repeats: For this revised scenario, use the relevant quantitative passage in this document to determine the outcome concerning virus and spreads. Should the team settle the item before the 10:00 meeting? Supporting materials were archived with the case file. A supplementary review continued to discuss case, tracker, lists, pending. The file logged 17 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

9n19: The coordination office prepared a detailed briefing note about for, this, revised, scenario, use. It logged 64 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 10:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

s-884L: A working summary for for, this, revised, scenario, use was circulated among the records team. The summary lists 22 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

I-118J: The records team recorded 29 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 15:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

64V4: For the current case, the review panel assembled 36 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 14:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

0d70: A liaison maintained 40 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

f-177B: The operations desk added 41 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 15:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

W5B1: The review panel prepared a detailed briefing note about for, this, revised, scenario, use. It logged 28 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 15:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

M561: A working summary for for, this, revised, scenario, use was circulated among the review panel. The summary lists 38 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

LW45: The records team recorded 41 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 13:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

52V332: For the current case, the field liaison assembled 23 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 10:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

x-361S: A liaison maintained 43 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 11:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

86/U8A: The field liaison added 48 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 9:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

C#53: The records team prepared a detailed briefing note about for, this, revised, scenario, use. It logged 42 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 9:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

72M412: A working summary for for, this, revised, scenario, use was circulated among the field liaison. The summary lists 59 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

K#59: The coordination office recorded 64 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

6a46: For the current case, the records team assembled 27 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 17:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

C#69: A liaison maintained 27 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

T#18: The field liaison added 46 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 11:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

J#34: The coordination office prepared a detailed briefing note about for, this, revised, scenario, use. It logged 43 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 10:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

29D969: A working summary for for, this, revised, scenario, use was circulated among the planning group. The summary lists 64 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

1101: Record E3-834. This file preserves the following case entry: What was the number of teachers who stayed at the party after half an hour, given that $(36 + 38)$ artists and 54 teachers initially attended, and after half an hour, one eighth of the total attendees left, with 31 artists being among those who stayed? The entry was retained with the case materials for review.

V#97: The records team recorded 43 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 15:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

09J9: Record F4-851. This file preserves the following case entry: What is the total cost of 11 orange balls priced at $\square 6$ each, 27 green balls priced at $\square 4$ each, and $(22 + 26)$ purple balls priced at $\square 2$ each? The entry was retained with the case materials for review.

P34: For the current case, the coordination office assembled 20 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 14:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

P87: A liaison maintained 27 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

13V363: The planning group added 37 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 12:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

1281: The planning group prepared a detailed briefing note about for, this, revised, scenario, use. It logged 49 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 9:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

H#57: A working summary for for, this, revised, scenario, use was circulated among the records team. The summary lists 55 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

X21: The coordination office recorded 55 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 12:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

s-633E: For the current case, the planning group assembled 18 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 11:00, while staff prepare the next

review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

1241: Record D5-539. The file preserves the following case entry. What is the total number of orders Jewel and Julie process together in a week, given that Jewel processes $(21 + 29)$ orders per day and Julie processes twice as many orders per day as Jewel? The entry was retained with the case materials for review.

2363: A liaison maintained 42 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

MW23: The coordination office added 48 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 16:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

800490: The records team prepared a detailed briefing note about for, this, revised, scenario, use. It logged 64 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 13:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

W-0356

Section	Details
Reference note	A working summary for for, this, revised, scenario, use was circulated among the records team. The summary lists 35 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

h-3292: The review panel recorded 27 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 14:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

O638: Record E7-237. The file preserves the following case entry. Jenna reeled in 3 salmon on Saturday, with the first weighing 56 kilograms, the second weighing $(19 + 27)$ kilograms, and the third weighing 26 kilograms. If each kilogram of salmon sells for \$0.50, how much money will Jenna make after selling all her salmon at the market? The entry was retained with the case materials for review.

N546: For the current case, the field liaison assembled 23 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for this and revised and scenario preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

0v30: A liaison maintained 37 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

D70: The field liaison added 30 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 11:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

PW80: The coordination office prepared a detailed briefing note about for, this, revised, scenario, use. It logged 44 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 13:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

1920: A working summary for for, this, revised, scenario, use was circulated among the operations desk. The summary lists 29 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

2152: The field liaison recorded 47 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 16:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

z-203V: Record 9B-268. The file preserves the following case entry: The cafeteria sells sandwiches for 75 cents and muffins for 125 cents. Priya spent $\square 1200$ and bought $(2 + 7)$ sandwiches, ending up with 6% of her money remaining as change. How many muffins did she purchase? The entry was retained with the case materials for review.

76N236: For the current case, the operations desk assembled 35 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 10:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

B10: A liaison maintained 23 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

B#39: The field liaison added 61 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 15:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

1743: Record 97-938. The file preserves the following case entry: A father consumes 6 pizzas per day, his partner consumes $(2 + 3)$ pizzas per day, and their granddaughter consumes 7 pizzas per day. How many pizzas does this family eat in one month? The entry was retained with the case materials for review.

O#03: The operations desk prepared a detailed briefing note about for, this, revised, scenario, use. It logged 32 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 11:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

B#52: A working summary for for, this, revised, scenario, use was circulated among the planning group. The summary lists 18 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

c-889N: The operations desk recorded 34 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 12:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

7097: For the current case, the review panel assembled 36 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

a-576N: A liaison maintained 49 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

4598: The records team added 29 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 10:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

96/N6: The review panel prepared a detailed briefing note about for, this, revised, scenario, use. It logged 43 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 11:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

R0D-A39: Record A4-218. The file preserves the following case entry: In a separate concerning and virus and spreads record, Given counted 41 items in the first review and $(9 + 17)$ in the second review. How many items did Given count altogether? The entry was retained with the case materials for review.

23/23: Record B2-370. The file preserves the following case entry: The school treasure hunt team concealed 150 tokens. The Patel twins each discovered 27 tokens. All the other tokens except $(4 + 8)$ were found by their classmates. How many tokens did the classmates find? The entry was retained with the case materials for review.

78W858: A working summary for for, this, revised, scenario, use was circulated among the coordination office. The summary lists 51 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

4r24: The review panel recorded 33 status entries connected with for, this, revised, scenario, use. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

5491: For the current case, the coordination office assembled 57 background notes concerning for, this, revised, scenario, use. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 9:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

C549: A liaison maintained 52 reference points for the discussion of for, this, revised, scenario, use. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

C632: The coordination office added 19 items to a tracking sheet related to for, this, revised, scenario, use. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 10:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.
