

Quantitative Case File

j-063O: The monitoring log contains 12 references to the requested result and the scenario, alongside routine status updates. Can all 12 references be reviewed before the 16:00 check-in? The review lead will decide on the next step after checking the files. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

31/X1: A liaison also received 7 requests mentioning the requested result and the scenario. Would adding a second review call reduce the outstanding requests by the end of the day? The liaison will raise that question at the next planning meeting.

o-709N: The records office asked staff to keep confirmed observations separate from estimates, requests, and draft notices. A number in one administrative note may be discussed again in a later update. The team will reconcile the entries during its normal review.

97Y547: For scheduling purposes, the coordination call has a provisional agenda and several teams may submit updates. The listed times are references for the meeting calendar and are retained in the file. Unresolved items remain with the team that submitted them.

n-483U: The facilities desk noted that visitor access and room setup will be confirmed later in the day. These arrangements may affect logistics and are tracked alongside the scenario. Staff will provide another update after the rooms are checked.

9t89: A final distribution note asks recipients to retain the brief with their local records. It also reminds readers that routine service counts, dates, and operational questions are included in several sections. The document-management team will keep the full set together.

d-243R: A progress log contains 12 entries associated with the current case. At the review, the open item was restated as: How many men were there originally? Could the item be closed before the 9:00 check-in? The detailed figures are maintained in a separate worksheet. A supplementary review continued to discuss progress, contains, entries, associated. The file logged 18 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

D801: The planning desk grouped 10 follow-up notes under the same request. One note asks: How many men were there originally? Would a further review call before 10:00 resolve the request? The planning note was circulated among the participating teams. A supplementary review continued to discuss planning, desk, grouped, follow. The file logged 34 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

m-839L: A coordinator marked 33 status updates for later attention. The accompanying prompt reads: How many men were there originally? Can the requested outcome be confirmed during the 11:00 review? The update was retained for the next review. A supplementary review continued to discuss coordinator, marked, status, updates. The file logged 34 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

1531: Record 65-795. The file preserves the following case entry. Rohan collects $(95 + 99)$ stamps on Sunday. Then he collects 212 stamps on Monday. On Tuesday, he collects triple the number of stamps he did on Sunday. How many stamps does Rohan have? The entry was retained with the case materials for review.

R36-F60: Record CA-455. The file preserves the following case entry. In a separate were and there and originally record, After counted 44 items in the first review and $(10 + 15)$ in the second review. How many items did After count altogether? The entry was retained with the case materials for review.

MW97: The case tracker lists 17 pending references for the briefing. Its next action item repeats: How many men were there originally? Should the team settle the item before the 15:00 meeting? Supporting materials were archived with the case file. A supplementary review continued to discuss case, tracker, lists, pending. The file logged 15 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

P#52: The review panel prepared a detailed briefing note about how many men were there. It logged 41 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

x-356M: A working summary for how many men were there was circulated among the planning group. The summary lists 49 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which

materials require a formal response.

23M553: The operations desk recorded 27 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 12:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

V03: For the current case, the operations desk assembled 62 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 15:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

P#00: A liaison maintained 58 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 15:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

9k19: The review panel added 46 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 18:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

8n38: The coordination office prepared a detailed briefing note about how many men were there. It logged 60 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 11:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

55U025: A working summary for how many men were there was circulated among the field liaison. The summary lists 38 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

61X161: The planning group recorded 63 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 15:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

7615: For the current case, the planning group assembled 44 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 11:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

z-976B: Record 3A-965: The file preserves the following case entry. Carlos cycles 21 miles each morning, covering 11 miles on rough terrain and 10 miles on a paved road. On the paved road, Carlos rides at twice the speed he does on the rough terrain. If he spends as many minutes as between 23:42 and 00:26 cycling on the rough terrain, how many minutes does it take for Carlos to finish his entire 21-mile ride? The entry was retained with the case materials for review.

A&23: Record FC-910: The file preserves the following case entry. How many tickets can each graduate receive if there are 8400 total seats available, 900 seats reserved for graduates, and 300 seats reserved for faculty? The entry was retained with the case materials for review.

3317: A liaison maintained 48 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

M11: The coordination office added 25 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 12:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

A30: The review panel prepared a detailed briefing note about how many men were there. It logged 31 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 11:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

1p61: A working summary for how many men were there was circulated among the operations desk. The summary lists 57 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

9v49: The review panel recorded 59 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 13:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

K&42: For the current case, the review panel assembled 41 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 14:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

e-373M: Record 78-481. The file preserves the following case entry: David and Kevin are brothers from Berlin who enjoy gathering stamps from different countries. Over their winter holiday, they spend each weekend adding to their stamp collections. After 4 weeks, David has collected 22 stamps, while Kevin has gathered 43. With 3 more weeks left in the holiday, they set a combined goal of reaching $(68 + 72)$ stamps by the end. How many more stamps do the brothers need to collect together to meet their target? The entry was retained with the case materials for review.

66Y306: A liaison maintained 47 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

B#20: Record 52-886. The file preserves the following case entry: Ramesh is deciding whether to repair his bike himself or hire a mechanic. If he does it himself, he'll save £120 but will have to spend $(2 + 6)$ more hours on it, losing £23/hour of potential tutoring income. How much more money will he have if he hires the mechanic? The entry was retained with the case materials for review.

00/D0: The planning group added 40 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 13:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

F92: The operations desk prepared a detailed briefing note about how many men were there. It logged 34 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 11:00 checkpoint? The coordinator will attach source material after the remaining references are verified. A related note in the file stated: After 17 men and 17 women are transferred out, the number of men becomes twice the number of women.

E97: A working summary for how many men were there was circulated among the field liaison. The summary lists 63 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

8254: The field liaison recorded 20 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 17:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

K&59: For the current case, the operations desk assembled 31 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

701: Record CF-152. The file preserves the following case entry. In a workshop, there are 68 fewer women than men. After 17 men and $(5 + 12)$ women are transferred out, the number of men becomes twice the number of women. How many men were there originally? The entry was retained with the case materials for review.

E&94: A liaison maintained 25 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

H513: The review panel added 50 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 13:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

53T693: The field liaison prepared a detailed briefing note about how many men were there. It logged 50 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 11:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

30S780: A working summary for how many men were there was circulated among the coordination office. The summary lists 34 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

2514: The operations desk recorded 63 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 16:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

Q#91: Record AF-422. The file preserves the following case entry. A teacher had 4 dozen chocolates hidden in the staff room for a surprise. David discovered 9 chocolates. Emily found twice as many as David. Frank found $(1 + 1)$ less than Emily, and George found $1/8$ as many as Frank. How many chocolates are still hidden in the staff room? The entry was retained with the case materials for review.

A#53: For the current case, the review panel assembled 24 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 10:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

6418:

Section	Details	
Reference note	A liaison maintained 41 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Follow-up note	Can the liaison provide a decision-ready update before the 15:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

75G135: The review panel added 41 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 16:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

RF6-DFD: Record 6D-708. The file preserves the following case entry. In a separate were and there and originally record, After counted 33 items in the first review and $(12 + 18)$ in the second review. How many items did After count altogether? The entry was retained with the case materials for review.

N#13: The coordination office prepared a detailed briefing note about how many men were there. It logged 21 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 11:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

8n28: A working summary for how many men were there was circulated among the field liaison. The summary lists 24 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

2080: The field liaison recorded 28 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 10:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

3f73: For the current case, the planning group assembled 42 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 11:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

38/H8: A liaison maintained 32 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 10:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

D#66: The review panel added 27 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 17:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

K77: The records team prepared a detailed briefing note about how many men were there. It logged 18 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

U800: A working summary for how many men were there was circulated among the operations desk. The summary lists 62 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

C#04: The planning group recorded 42 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 14:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

7257: Record 52-344: The file preserves the following case entry. Santiago initially had $(1 + 2)$ times as many corns as persimmons. If he had 50 persimmons and bought 64 persimmons and 26 fewer corns than persimmons, how many total corns and persimmons does Santiago have now? The entry was retained with the case materials for review.

R96-CA0: Record F7-495: The file preserves the following case entry. In a separate were and there and originally record, After counted $(21 + 28)$ items in the first review and 18 in the second review. How many items did After count altogether? The entry was retained with the case materials for review.

44/S4: For the current case, the records team assembled 63 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 15:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

I#08: A liaison maintained 43 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

Q15: The coordination office added 45 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 14:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

4479: The field liaison prepared a detailed briefing note about how many men were there. It logged 57 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 12:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

82E762: Record 22-245: The file preserves the following case entry. A structure is built using $(2 + 2)$ green bricks, twice as many orange bricks, and an unknown number of purple bricks. If there are 32 bricks in the structure in total, how many purple bricks are there? The entry was retained with the case materials for review.

V#40: A working summary for how many men were there was circulated among the review panel. The summary lists 27 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

H36: Record E9-596: The file preserves the following case entry. Ibrahim bought $(4 + 8)$ erasers, each costing ¥10.75, and 4 pencils, each costing ¥11.25. He also spent an additional ¥21 on notebooks. What is the total amount in yen that Ibrahim spent on all his school supplies? The entry was retained with the case materials for review.

U#39: The operations desk recorded 31 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 16:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

I#41: For the current case, the records team assembled 43 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 10:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

RBB-C8D: Record 09-373. The file preserves the following case entry. In a separate were and there and originally record, After counted 33 items in the first review and (2 + 7) in the second review. How many items did After count altogether? The entry was retained with the case materials for review.

28U238: A liaison maintained 28 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 9:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

6w56: The operations desk added 50 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 17:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

N26: The review panel prepared a detailed briefing note about how many men were there. It logged 24 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 10:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

2344: A working summary for how many men were there was circulated among the coordination office. The summary lists 27 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

89/V9: The records team recorded 35 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 14:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

7398: For the current case, the planning group assembled 19 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 15:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

3041: A liaison maintained 42 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 11:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

Y#39: The coordination office added 53 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 11:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

72/M2: The review panel prepared a detailed briefing note about how many men were there. It logged 60 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 9:00 checkpoint? The coordinator will attach source material after the remaining references are verified. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

Y#88: Record A5-369. The file preserves the following case entry. Pavel originally had 68 buttons and lost half of them. He then found 16 of his lost buttons. Later, he gave (1 + 1) buttons away. How many buttons does Pavel have now? The entry was retained with the case materials for review.

X#36: A working summary for how many men were there was circulated among the operations desk. The summary lists 26 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials

require a formal response.

H18: The planning group recorded 22 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 17:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for many and were and there preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

G37: For the current case, the coordination office assembled 21 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

74/24: A liaison maintained 43 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

5o45: Record E5-591. The file preserves the following case entry. Benjamin had some beads in his pocket. When he dropped them, 2/5 of the beads fell out. He then found 15 of the lost beads. When he got home, he emptied his pocket and found (3 + 6) coins among the beads. If he originally had 100 beads, how many beads was he left with after removing the coins? The entry was retained with the case materials for review.

4u24: The review panel added 18 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 13:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

j-305B: The review panel prepared a detailed briefing note about how many men were there. It logged 45 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 17:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

81/K1: A working summary for how many men were there was circulated among the review panel. The summary lists 43 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

g-396S: The review panel recorded 44 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 10:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

197: For the current case, the review panel assembled 27 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

73/S3: A liaison maintained 40 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 10:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

41C701: The coordination office added 20 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 14:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

92V2B2: The field liaison prepared a detailed briefing note about how many men were there. It logged 57 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 17:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

V&73: A working summary for how many men were there was circulated among the planning group. The summary lists 27 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials

require a formal response.

77D967: The operations desk recorded 32 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 12:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

R&60: For the current case, the review panel assembled 26 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

67/V7: A liaison maintained 46 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

71/X1: The coordination office added 55 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 15:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

6y4B: Record F4-272. The file preserves the following case entry. A box contains $(2 + 6)$ black pens, thrice as many red pens, and an unknown number of blue pens. If there are 38 pens in the box in total, how many blue pens are there? The entry was retained with the case materials for review.

E&82: The coordination office prepared a detailed briefing note about how many men were there. It logged 50 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

2331: A working summary for how many men were there was circulated among the field liaison. The summary lists 18 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

VW27: The operations desk recorded 39 status entries connected with how many men were there. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

54N224: For the current case, the records team assembled 40 background notes concerning how many men were there. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 9:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

2n62: A liaison maintained 41 reference points for the discussion of how many men were there. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

887: The field liaison added 22 items to a tracking sheet related to how many men were there. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 17:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

R92-619: Outcome record 65-795: the final recorded value for case 65-795 was 988. The review entry was filed.

R09-7EF: Outcome record AF-422: the final recorded value for case AF-422 was 3. The review entry was filed.

R4D-B4B: Outcome record 52-344: the final recorded value for case 52-344 was 302. The review entry was filed.

R3F-351: Outcome record 09-373: the final recorded value for case 09-373 was 42. The review entry was filed.

RC8-723: Outcome record 78-481: the final recorded value for case 78-481 was 75. The review entry was filed.

RD8-DAB: Outcome record FC-910: the final recorded value for case FC-910 was 8. The review entry was filed.

RDE-01F: Outcome record E5-591: the final recorded value for case E5-591 was 66. The review entry was filed.

R98-81E: Outcome record E9-596: the final recorded value for case E9-596 was 195. The review entry was filed.

R3F-1CB: Outcome record F4-272: the final recorded value for case F4-272 was 8. The review entry was filed.

R8B-FD2: Outcome record 0D-708: the final recorded value for case 0D-708 was 63. The review entry was filed.
R4A-372: Outcome record A5-369: the final recorded value for case A5-369 was 48. The review entry was filed.
R58-A21: Outcome record 52-886: the final recorded value for case 52-886 was 64. The review entry was filed.
RDE-637: Outcome record 22-245: the final recorded value for case 22-245 was 20. The review entry was filed.
RA9-2AB: Outcome record CA-455: the final recorded value for case CA-455 was 69. The review entry was filed.
R95-49F: Outcome record F7-495: the final recorded value for case F7-495 was 67. The review entry was filed.
R5B-8E1: Outcome record 3A-985: the final recorded value for case 3A-985 was 64. The review entry was filed.
