

Quantitative Case File

J05: Regional Operations Brief — prepared for the 8:00 coordination call. This internal document combines service updates, weather-sensitive observations, planning notes, and open questions from several teams.

6r26: 1. Purpose and reading note

M#92: Record 3C-667. The file preserves the following case entry. How much money does Elena save by hiring a bookkeeper for ¥78 instead of doing her business accounting herself, if she earns ¥42 per hour and it takes her $(2 + 5)$ hours to complete the accounting tasks? The entry was retained with the case materials for review.

p-440A: Each item in this brief is submitted by a different team. Dates, staff counts, message totals, and operational questions apply only to the item in which they appear. The note was retained for the next review.

68U188:

Team	On-call staff	Next check-in
Roads	12	09:30
Parks	4	10:15
Communications	6	11:00

2746: The support team has received related comments about carlos, visited, and mountains; some mention weather conditions and others concern routine service access. The note was retained for the next review.

26/C6: Record 66-241. The file preserves the following case entry. What is the total amount spent by Jamal on school supplies if he bought 24 notebooks at \$8.5 each, $(3 + 7)$ markers at \$12.0 each, and an additional \$22 worth of other supplies? The entry was retained with the case materials for review.

46/B6: The morning desk received 33 messages, including 2 requests for follow-up. Can all messages be reviewed before the next check-in? The note was retained for the next review.

V47: 2. Topic and conditions update

53B903: Several field notes refer to carlos, visited, and mountains. The note was retained for the next review. Staff have been asked to distinguish verified observations from planning scenarios in the public record.

A32:

Section	Details	
Reference note	A liaison asked whether the weather-sensitive update should be issued before 14:00. Follow-up note	The answer depends on a later policy decision. The note was retained for the next review.

D#79: Field reminders: 1. Record observations using the current incident form. 2. Refer public questions to the latest verified bulletin. 3. Keep planning exercises separate from operational updates. 4. Confirm any schedule changes with the responsible team.

E#57: 3. Related observations and service notes

S&75: The support desk has received several comments related to carlos, visited, and mountains. Some concern weather conditions, while others concern routine service access and public notices. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

73A533: A school liaison asked whether the afternoon notice should be translated, and a transit operator requested the current bulletin for its drivers. Will the notice need a new headline? Communications will decide after the meeting. The note

was retained for the next review.

Y16: For record keeping, the incident log uses observation, service question, and planning scenario as separate labels. The note was retained for the next review.

67A537: 3.1 Coordination and records

88/S8: Record 67-614. The file preserves the following case entry. A bottle of apple juice contains (3 + 6) ounces of juice. Priya drinks 5 bottles of apple juice. If apple juice has 2 calories per ounce, how many calories did she consume? The entry was retained with the case materials for review.

72/C2: Before the coordination call, each team should review its own entries for clarity and remove duplicate attachments. The Secretariat will combine confirmed service updates into the meeting record, while unresolved questions remain assigned to their originating team. The note was retained for the next review.

72L612: 4. Facilities and meeting logistics

G#94: The east meeting room is reserved for 14 attendees, with 1 visitor badges awaiting confirmation. Is the west entrance open after 18:30? Facilities will confirm access arrangements before the afternoon briefing.

N97:

Item	Owner	Due time
Attendance notes	Secretariat	17:00
Notice review	Communications	13:00
Route update	Roads	15:30
Venue access	Facilities	14:00

22P912: 5. Questions for the coordination call

65/P5: Should a second status call be added this afternoon? Can the public-information desk continue with its current staffing? These are policy and operational questions. The note was retained for the next review.

H82: Distribution: emergency planning: Roads, Parks, Library, and Communications. Please retain this document with the coordination records and use only verified updates in external communications.

354: The monitoring log contains 18 references to Leon and visited, alongside routine status updates. Can all 18 references be reviewed before the 17:00 check-in? The review lead will decide on the next step after checking the files.

H#80: A liaison also received 4 requests mentioning Leon and visited. Would adding a second review call reduce the outstanding requests by the end of the day? The liaison will raise that question at the next planning meeting.

0j40: The records office asked staff to keep confirmed observations separate from estimates, requests, and draft notices. A number in one administrative note may be discussed again in a later update. The team will reconcile the entries during its normal review.

p-7550: For scheduling purposes, the coordination call has a provisional agenda and several teams may submit updates. The listed times are references for the meeting calendar and are retained in the file. Unresolved items remain with the team that submitted them.

2776: The facilities desk noted that visitor access and room setup will be confirmed later in the day. These arrangements may affect logistics and are tracked alongside the scenario. Staff will provide another update after the rooms are checked.

D05: A final distribution note asks recipients to retain the brief with their local records. It also reminds readers that routine service counts, dates, and operational questions are included in several sections. The document-management team will keep the full set together.

50/D0: A progress log contains 38 entries associated with the current case. At the review, the open item was restated as: What is the requested result for the report's scenario about Leon and visited? Could the item be closed before the 11:00 check-in? The detailed figures are maintained in a separate worksheet. A supplementary review continued to discuss progress, contains, entries, associated. The file logged 32 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

5272: The planning desk grouped 21 follow-up notes under the same request. One note asks: What is the requested result for the report's scenario about Leon and visited? Would a further review call before 15:00 resolve the request? The planning note was circulated among the participating teams. A supplementary review continued to discuss planning, desk,

grouped, follow. The file logged 30 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

585: A coordinator marked 30 status updates for later attention. The accompanying prompt reads: What is the requested result for the report's scenario about Leon and visited? Can the requested outcome be confirmed during the 13:00 review? The update was retained for the next review. A supplementary review continued to discuss coordinator, marked, status, updates. The file logged 31 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

X19: The case tracker lists 23 pending references for the briefing. Its next action item repeats: What is the requested result for the report's scenario about Leon and visited? Should the team settle the item before the 13:00 meeting? Supporting materials were archived with the case file. A supplementary review continued to discuss case, tracker, lists, pending. The file logged 17 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

e-346M: The operations desk prepared a detailed briefing note about what, the, requested, result, for. It logged 38 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

W#58: A working summary for what, the, requested, result, for was circulated among the records team. The summary lists 51 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

4w34: The review panel recorded 34 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 17:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

1457: For the current case, the planning group assembled 37 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 9:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

V&32: Record 11-794. The file preserves the following case entry. A bottle of orange juice contains $(5 + 8)$ ozs. Priya drinks 4 bottles of orange juice. If orange juice has 8 calories per oz, how many calories did she consume? The entry was retained with the case materials for review.

15/25: A liaison maintained 48 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

66U626: The planning group added 50 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 14:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

F28: The coordination office prepared a detailed briefing note about what, the, requested, result, for. It logged 25 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 12:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

3598: A working summary for what, the, requested, result, for was circulated among the records team. The summary lists 53 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

31/Y1: The review panel recorded 64 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 13:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

V04: For the current case, the operations desk assembled 23 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 10:00, while staff prepare the next review. The

file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

80M230: A liaison maintained 20 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

7758: The review panel added 49 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 16:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

q-270E: The coordination office prepared a detailed briefing note about what, the, requested, result, for. It logged 30 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 13:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

26C596: A working summary for what, the, requested, result, for was circulated among the coordination office. The summary lists 33 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

s-906X: The coordination office recorded 35 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

m-456L: For the current case, the records team assembled 24 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 11:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

O#01: A liaison maintained 58 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 16:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

o-109S: The operations desk added 53 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 9:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

y-297F: The coordination office prepared a detailed briefing note about what, the, requested, result, for. It logged 54 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 17:00 checkpoint? The coordinator will attach source material after the remaining references are verified. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

R#26: A working summary for what, the, requested, result, for was circulated among the operations desk. The summary lists 47 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

99J489: Record B1-423. The file preserves the following case entry. How many calories did John consume if he drank 13 glasses of lemonade, with each glass containing 4 ounces, and each ounce has $(2 + 6)$ calories? The entry was retained with the case materials for review.

91B791: The planning group recorded 48 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 15:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

5487: For the current case, the field liaison assembled 42 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 16:00, while staff prepare the next review. The file remains open while

staff check the original observations. A later memo will summarize which issues were resolved.

E38: A liaison maintained 35 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 10:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

X&27: The review panel added 23 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 15:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

892: The records team prepared a detailed briefing note about what, the, requested, result, for. It logged 40 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 16:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

K#41: A working summary for what, the, requested, result, for was circulated among the review panel. The summary lists 64 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

26/U6: Record 61-951. The file preserves the following case entry. Tom has 20 pencils in his bag. His friend has $(2 + 3)$ fewer pens than Tom has pencils. How many writing items do they have together? The entry was retained with the case materials for review.

c-088B: The records team recorded 58 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 10:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

61/F1: For the current case, the review panel assembled 56 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 12:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

S&37: A liaison maintained 24 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 9:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

47/K7: The field liaison added 64 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 14:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

J13: The review panel prepared a detailed briefing note about what, the, requested, result, for. It logged 27 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 15:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

k-367M: A working summary for what, the, requested, result, for was circulated among the coordination office. The summary lists 50 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

8345: The coordination office recorded 42 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 15:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

R57-421: Record B6-248. The file preserves the following case entry. In a separate about and leon and visited record, Leon counted 50 items in the first review and $(4 + 13)$ in the second review. How many items did Leon count altogether? The entry was retained with the case materials for review.

5u15: Record AD-350. The file preserves the following case entry. Carlos visited his garden and saw seven times as many butterflies as moths among the plants. If there were (34 + 44) moths, how many insects were there in total? The entry was retained with the case materials for review.

2q02: For the current case, the field liaison assembled 38 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 9:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

760: A liaison maintained 64 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 9:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for What and requested and result preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

1291: The operations desk added 28 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 11:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

RCE-F21: Record AA-323. The file preserves the following case entry. In a separate about and Leon and visited record, Leon counted (6 + 13) items in the first review and 11 in the second review. How many items did Leon count altogether? The entry was retained with the case materials for review.

D&49: The coordination office prepared a detailed briefing note about what, the, requested, result, for. It logged 28 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 14:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

72/K2: A working summary for what, the, requested, result, for was circulated among the planning group. The summary lists 47 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

3306: The coordination office recorded 21 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 15:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

36Y636: For the current case, the review panel assembled 26 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 11:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

2e72: A liaison maintained 40 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 16:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

91/F1: The operations desk added 58 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 12:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

52/T2: The planning group prepared a detailed briefing note about what, the, requested, result, for. It logged 47 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 9:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

RC2-E31: Record 1B-912. The file preserves the following case entry. In a separate about and Leon and visited record, Leon counted (9 + 18) items in the first review and 18 in the second review. How many items did Leon count altogether? The entry was retained with the case materials for review.

3438: A working summary for what, the, requested, result, for was circulated among the coordination office. The summary lists 30 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next

review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

D&15: The planning group recorded 25 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

J18: Record 74-588. The file preserves the following case entry. David needs to read a 272-page novel for his literature class. He has already completed 2/4 of the book. How many pages does he still need to read? The entry was retained with the case materials for review.

K93: For the current case, the records team assembled 55 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 16:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

Q91: Record F0-707. The file preserves the following case entry. Diana visited the park and observed that there were ten times as many butterflies as bees around the flowers. If she counted $(42 + 45)$ bees, what is the total number of insects Diana saw? The entry was retained with the case materials for review.

B#74: A liaison maintained 31 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

Z48: The operations desk added 45 items to a tracking sheet related to what, the, requested, result, for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 9:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

2841: Record 59-981. The file preserves the following case entry. Carlos has \$94.42 and wants to purchase $(20 + 27)$ marbles from a toy shop. Each marble costs \$0.86. How much money will Carlos have left after buying the marbles? The entry was retained with the case materials for review.

M#98: The coordination office prepared a detailed briefing note about what, the, requested, result, for. It logged 44 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 13:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

95A595: A working summary for what, the, requested, result, for was circulated among the records team. The summary lists 49 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

T#42: The field liaison recorded 44 status entries connected with what, the, requested, result, for. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 15:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

D27: For the current case, the field liaison assembled 42 background notes concerning what, the, requested, result, for. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 9:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

4228: Record 78-321. The file preserves the following case entry. If Alex and Ryan have $(46 + 54)$ meters of wire between them, and they agree to split it with Ryan getting 60 meters more than Alex, how much is left over for Alex? The entry was retained with the case materials for review.

p-139T: Record 1D-121. The file preserves the following case entry. Leon visited the mountains for a holiday. His grandparents gave him ¥2339 to spend however he liked. At a local shop, dried fruit was offered at "Buy seventeen kgs at ¥21 per kg, get four kgs 2/3 off." He bought a total of twenty-three kgs. He also purchased a souvenir box for ¥11.75 and picked up $(5 + 12)$ magnets costing ¥21.25 each. Determine how much money does Leon have left. The entry was retained with the case materials for review.

RD0-19C: Record C8-262. The file preserves the following case entry. In a separate about and Leon and visited record, Leon counted $(6 + 16)$ items in the first review and 28 in the second review. How many items did Leon count altogether? The entry was retained with the case materials for review.

K88: A liaison maintained 19 reference points for the discussion of what, the, requested, result, for. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a

decision-ready update before the 10:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

08/G8: The field liaison added 61 items to a tracking sheet related to what the requested result for. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 11:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

4683: Record 68-879. The file preserves the following case entry: A group of friends eats (2 + 5) pizzas for breakfast, 5 pizzas for lunch, and 4 pizzas for dinner every day, how many pizzas do they eat in a week? The entry was retained with the case materials for review.

R10-A94: Outcome record 74-588: the final recorded value for case 74-588 was 136. The review entry was filed.

R6E-07A: Outcome record 68-879: the final recorded value for case 68-879 was 112. The review entry was filed.

RBA-5B3: Outcome record F0-707: the final recorded value for case F0-707 was 957. The review entry was filed.

R93-EE9: Outcome record 1B-912: the final recorded value for case 1B-912 was 45. The review entry was filed.

R47-6AB: Outcome record 78-321: the final recorded value for case 78-321 was 20. The review entry was filed.

RFB-3C7: Outcome record B1-423: the final recorded value for case B1-423 was 416. The review entry was filed.

R4D-710: Outcome record AA-323: the final recorded value for case AA-323 was 30. The review entry was filed.

RCC-D04: Outcome record B6-248: the final recorded value for case B6-248 was 67. The review entry was filed.

R69-66C: Outcome record 59-981: the final recorded value for case 59-981 was 54. The review entry was filed.

R3B-94F: Outcome record 11-794: the final recorded value for case 11-794 was 416. The review entry was filed.

R43-C0A: Outcome record C8-262: the final recorded value for case C8-262 was 50. The review entry was filed.

RDD-7DA: Outcome record 61-951: the final recorded value for case 61-951 was 35. The review entry was filed.

RBF-BBF: Outcome record 67-614: the final recorded value for case 67-614 was 90. The review entry was filed.

RD6-D50: Outcome record AD-350: the final recorded value for case AD-350 was 624. The review entry was filed.

RE8-A33: Outcome record 66-241: the final recorded value for case 66-241 was 346. The review entry was filed.

RFF-E50: Outcome record 3C-667: the final recorded value for case 3C-667 was 216. The review entry was filed.
