

## Quantitative Case File

o-125T: Record 59-715. The file preserves the following case entry. Liam was hosting a birthday party and planned to serve cake on disposable plates. Realizing he had none left, he bought a new pack of plates. Later, his friend also brought over a pack of 9 plates for him. While preparing the cake, Liam used ten plates to test out different slices. When it was time to set the table, he counted and found  $(8 + 16)$  plates remaining. How many plates were in the package that Liam bought? The entry was retained with the case materials for review.

N#47: The monitoring log contains 12 references to the requested result and the scenario, alongside routine status updates. Can all 12 references be reviewed before the 17:00 check-in? The review lead will decide on the next step after checking the files.

6001: Record 3B-230. The file preserves the following case entry. Lena has €82.3 and plans to purchase  $(23 + 32)$  screws from a box at the supply shop. Each screw is priced at €0.26. How much money does Lena have remaining after buying the screws? The entry was retained with the case materials for review.

4h24: A liaison also received 10 requests mentioning the requested result and the scenario. Would adding a second review call reduce the outstanding requests by the end of the day? The liaison will raise that question at the next planning meeting.

H#38: The records office asked staff to keep confirmed observations separate from estimates, requests, and draft notices. A number in one administrative note may be discussed again in a later update. The team will reconcile the entries during its normal review.

M314: For scheduling purposes, the coordination call has a provisional agenda and several teams may submit updates. The listed times are references for the meeting calendar and are retained in the file. Unresolved items remain with the team that submitted them.

O#08: The facilities desk noted that visitor access and room setup will be confirmed later in the day. These arrangements may affect logistics and are tracked alongside the scenario. Staff will provide another update after the rooms are checked.

77/T7: A final distribution note asks recipients to retain the brief with their local records. It also reminds readers that routine service counts, dates, and operational questions are included in several sections. The document-management team will keep the full set together.

6z26: A progress log contains 38 entries associated with the current case. At the review, the open item was restated as: How many books did Diego have at first? Could the item be closed before the 9:00 check-in? The detailed figures are maintained in a separate worksheet. A supplementary review continued to discuss progress, contains, entries, associated. The file logged 16 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

58B738: The planning desk grouped 33 follow-up notes under the same request. One note asks: How many books did Diego have at first? Would a further review call before 12:00 resolve the request? The planning note was circulated among the participating teams. A supplementary review continued to discuss planning, desk, grouped, follow. The file logged 18 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

u-558E: A coordinator marked 38 status updates for later attention. The accompanying prompt reads: How many books did Diego have at first? Can the requested outcome be confirmed during the 13:00 review? The update was retained for the next review. A supplementary review continued to discuss: coordinator, marked, status, updates. The file logged 25 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed.

1890: The case tracker lists 38 pending references for the briefing. Its next action item repeats: How many books did Diego have at first? Should the team settle the item before the 14:00 meeting? Supporting materials were archived with the case file. A supplementary review continued to discuss case, tracker, lists, pending. The file logged 12 related references during the reporting period and grouped them with the same subject area. Staff compared the notes with earlier updates before preparing a short follow-up. The next review will revisit the topic after the remaining references are confirmed. The extended background record for many and books and Diego preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

4020: The operations desk prepared a detailed briefing note about how many books did Diego. It logged 41 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 15:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

4r74: Record 0E-400. The file preserves the following case entry. When James babysits his niece, he brings out several games for her. The box of puzzles contains 31 pieces. The basket of dolls has 8 dolls in it. The rack of toy cars holds  $(3 + 6)$  cars. James recently purchased a set of marbles, making the total number of toys for his niece reach 62. How many marbles

are in the set? The entry was retained with the case materials for review.

8591: A working summary for how many books did diego was circulated among the coordination office. The summary lists 20 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

A&91: The operations desk recorded 31 status entries connected with how many books did diego. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 13:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

n-901U: For the current case, the field liaison assembled 47 background notes concerning how many books did diego. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 17:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

s-739E: A liaison maintained 24 reference points for the discussion of how many books did diego. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

E#7B: The field liaison added 18 items to a tracking sheet related to how many books did diego. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 16:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

55D285: The records team prepared a detailed briefing note about how many books did diego. It logged 32 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 16:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

F95: Record F7-741. The file preserves the following case entry: How many minutes longer does it take Quinn to swim 5 kilometers in warm water versus cold water, given that it takes her as many clock minutes as lie between 11.45 p.m. and 12.00 a.m. to swim 1 kilometer in cold water and her warm water swimming time per kilometer is the number of minutes from 11.57 p.m. to 12.03 a.m. plus 3 times her cold water swimming time per kilometer? The entry was retained with the case materials for review.

J&29: A working summary for how many books did diego was circulated among the field liaison. The summary lists 59 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

97/M7: The coordination office recorded 49 status entries connected with how many books did diego. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 10:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

13/X3: For the current case, the records team assembled 32 background notes concerning how many books did diego. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

5812: A liaison maintained 48 reference points for the discussion of how many books did diego. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 16:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

22E992: The review panel added 44 items to a tracking sheet related to how many books did diego. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 10:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

5w75: The records team prepared a detailed briefing note about how many books did diego. It logged 36 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 16:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

L&01: A working summary for how many books did diego was circulated among the field liaison. The summary lists 50 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials

require a formal response.

N94: The planning group recorded 48 status entries connected with how many books did diego. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 15:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

400800: Record E0-977. The file preserves the following case entry: Lila owns three times as many comic books as Ben. Sarah has four times as many comic books as Ben. If Lila has  $(5 + 7)$  comic books, how many comic books does Sarah have? The entry was retained with the case materials for review.

6077: A liaison maintained 57 reference points for the discussion of how many books did diego. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 13:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

71/U1: Record 77-359. The file preserves the following case entry. What percentage of the total number of spoons are white, given that there are 47 white spoons from factory A, 73 white spoons from factory B, 32 red spoons from factory C, and  $(42 + 48)$  blue spoons from factory D? The entry was retained with the case materials for review.

Z36: The coordination office added 29 items to a tracking sheet related to how many books did diego. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 17:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

RC0-D57: Record AQ-273. The file preserves the following case entry. In a separate diego and have and first record, the case owner counted 21 items in the first review and  $(3 + 10)$  in the second review. How many items did the case owner count altogether? The entry was retained with the case materials for review.

6a26: The planning group prepared a detailed briefing note about how many books did diego. It logged 56 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 9:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

59Q699: A working summary for how many books did diego was circulated among the review panel. The summary lists 25 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

H#25: The planning group recorded 61 status entries connected with how many books did diego. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 11:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

G97: Record BB-927. The file preserves the following case entry. Priya was hosting a dinner party and planned to serve pasta. She realized she had no clean spoons, so she purchased a new box of spoons. Later that day, her friend also bought a pack of 10 spoons for Priya. While cooking, Priya used eight spoons to taste the pasta sauce. When it was time to set the table, she counted  $(13 + 18)$  spoons in total. How many spoons were in the box that Priya bought? The entry was retained with the case materials for review.

45/E5: For the current case, the operations desk assembled 51 background notes concerning how many books did diego. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 15:00, while staff prepare the next review. The file remains open

while staff check the original observations. A later memo will summarize which issues were resolved.

24/H4: A liaison maintained 64 reference points for the discussion of how many books did diego. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

R18-B9D: Record E0-214. The file preserves the following case entry: In a separate diego and have a first record, the case owner counted (10 + 21) items in the first review and 25 in the second review. How many items did the case owner count altogether? The entry was retained with the case materials for review.

41F061: The operations desk added 41 items to a tracking sheet related to how many books did diego. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 18:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

84Z624: The planning group prepared a detailed briefing note about how many books did diego. It logged 32 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 9:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

r-073T: A working summary for how many books did diego was circulated among the coordination office. The summary lists 54 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

5337: The review panel recorded 30 status entries connected with how many books did diego. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 17:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

Q&40: For the current case, the planning group assembled 34 background notes concerning how many books did diego. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 11:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

W86: A liaison maintained 63 reference points for the discussion of how many books did diego. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 17:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

8721: The coordination office added 46 items to a tracking sheet related to how many books did diego. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 11:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

130: The planning group prepared a detailed briefing note about how many books did diego. It logged 26 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 12:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

441314: A working summary for how many books did diego was circulated among the records team. The summary lists 58 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

45T135: The planning group recorded 54 status entries connected with how many books did diego. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 17:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

41S591: Record C2-656. The file preserves the following case entry: How many blueberry cupcakes did the bakery make if they produced a total of 9325 cupcakes, with 2165 being strawberry and 1514 being vanilla? The entry was retained with the case materials for review.

55Q945: For the current case, the review panel assembled 43 background notes concerning how many books did diego. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 13:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

75/E5: A liaison maintained 46 reference points for the discussion of how many books did diego. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 17:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

3635: The field liaison added 28 items to a tracking sheet related to how many books did diego. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 15:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

3d83: Record 88-767. The file preserves the following case entry. How many total pieces did Yara complete if she initially completed 650 pieces and then did  $\frac{2}{5}$  of an additional  $(89 + 71)$  pieces? The entry was retained with the case materials for review.

RDB-ED5: Record 46-297. The file preserves the following case entry. In a separate diego and have and first record, the case owner counted  $(15 + 25)$  items in the first review and 31 in the second review. How many items did the case owner count altogether? The entry was retained with the case materials for review.

9q79: The records team prepared a detailed briefing note about how many books did diego. It logged 50 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 9:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

T15: A working summary for how many books did diego was circulated among the field liaison. The summary lists 81 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

d-348X: The coordination office recorded 64 status entries connected with how many books did diego. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 15:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

R03-87A: Record 3C-529. The file preserves the following case entry. In a separate diego and have and first record, the case owner counted 35 items in the first review and  $(4 + 11)$  in the second review. How many items did the case owner count altogether? The entry was retained with the case materials for review.

PW51: Record 0C-816. The file preserves the following case entry. Raphael went to a stationery store to buy some school supplies. He bought 4 pens at \$1.5 each,  $(1 + 1)$  notebooks at \$4 each and a geometry box for \$20. How much did he spend in total on the school supplies? The entry was retained with the case materials for review.

S#19: For the current case, the review panel assembled 64 background notes concerning how many books did diego. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 9:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved. The extended background record for many and books and Diego preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review. The extended background record for many and books and Diego preserves administrative observations, scheduling details, and staff comments for later reference. The note was retained for the next review. The note was retained for the next review.

57V397: A liaison maintained 25 reference points for the discussion of how many books did diego. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 14:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

I-922M: Record B0-509. The file preserves the following case entry. What is the total number of orders Jewel and Julie process together in a week, given that Jewel processes  $(21 + 29)$  orders per day and Julie processes twice as many orders per day as Jewel? The entry was retained with the case materials for review.

N#46: The planning group added 43 items to a tracking sheet related to how many books did diego. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 13:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

M#90: The review panel prepared a detailed briefing note about how many books did diego. It logged 46 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 13:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

Q&55: A working summary for how many books did, diego was circulated among the operations desk. The summary lists 62 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

704: The review panel recorded 54 status entries connected with how many books did, diego. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 13:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

T99: For the current case, the planning group assembled 35 background notes concerning how many books did, diego. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 15:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

I23: A liaison maintained 18 reference points for the discussion of how many books did, diego. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 12:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

450: The planning group added 50 items to a tracking sheet related to how many books did, diego. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 17:00 session. The note was retained for the next review. The next report will note any follow-up needed from the participating teams.

91L131: The operations desk prepared a detailed briefing note about how many books did, diego. It logged 58 related references from prior updates and retained them in chronological order. The note was retained for the next review. Could the open item be reviewed before the 10:00 checkpoint? The coordinator will attach source material after the remaining references are verified.

572: A working summary for how many books did, diego was circulated among the records team. The summary lists 48 observations, dates, and follow-up comments that may be relevant to later discussion. The note was retained for the next review. Staff were asked to preserve the wording of each observation. A subsequent update will identify which materials require a formal response.

F&54: The records team recorded 34 status entries connected with how many books did, diego. Several entries mention quantities, schedules, or prior decisions, but they were entered as separate administrative references. Could a reviewer settle the current request by 9:00? The note records the entries in the order received. The case owner will compare the status entries with the supporting materials during the next review.

57Q187: For the current case, the review panel assembled 58 background notes concerning how many books did, diego. The notes document questions raised by different participants and preserve the times at which they were received. One follow-up asks if the requested result should be discussed at 18:00, while staff prepare the next review. The file remains open while staff check the original observations. A later memo will summarize which issues were resolved.

37/C7: A liaison maintained 43 reference points for the discussion of how many books did, diego. These notes include meeting times, routing details, and short descriptions of the questions received from each team. Can the liaison provide a decision-ready update before the 9:00 review? The notes remain available for the next review. The liaison will preserve the references for comparison with the complete scenario.

F&59: Record E7-157. The file preserves the following case entry. Rahim harvested 4 watermelons last Thursday, the first watermelon he harvested weighs 47 kgs, the second watermelon he harvested weighs  $(22 + 33)$  kgs, and the last watermelon he harvested weighs 24 kgs. If a kg of watermelon costs ₱1.0, how much will he earn after selling all the watermelons to the local market? The entry was retained with the case materials for review.

3u23: The planning group added 53 items to a tracking sheet related to how many books did, diego. Each item records a local observation and a pending action, so the sheet serves as context for the broader case. Staff asked whether the open question could be closed during the 13:00 session.
